Morrow and Young
Wealth and Democracy

NEW YORKERS, with money and leisure to settle the affairs of the nation, say the Republican candidate for President will be Mr. Morrow, recently ambassador to Mexico, and the Democratic candidate Mr. Young, financial genius, father of the Young plan for Germany.

By some it is suggested that both are "too close to big money," Mr. Morrow being a former Morgan partner, and Mr. Young head of various great corporations.

That objection is feeble. In military nations, military men are chosen to lead. In this business—money nation and government — business-money men might well be chosen.

But the Morrow and Young enthusiasts overlook President Hoover and Governor Smith.

President Hoover will emerge from the cloud of bootleg-prohibition discussion that now obscures him, and prove that the people did not elect a great engineer to deal only with petty crime.

And whoever believes that the Democrats can overlook Governor Smith in a national convention, overlooks the meaning of 15,000,000 votes. Governor Smith can accumulate the 15,000,000 again. Who else, among Democrats, could gather them?

Calvin Coolidge says our democracy has shown ability to take care of itself.

It might be more accurately said that our plutocracy has proved its ability to take care of our democracy, giving it steady work and as good wages as democracy can reasonably expect.

Mr. Coolidge is satisfied with the distribution of wealth. Small fortunes are handed on, big fortunes tend to scatter for charitable purposes. The nation is worth three hundred billions according to Mr. Coolidge, and its annual income is ninety billions. He says we have "a fringe of idle, vicious, boisterous wastrels." But on the whole there is nothing to worry us.

Mr. Coolidge underestimates America's wealth. It is not limited to what we get out of the ground, mines, factories.

Texas alone has a potential wealth greater than three hundred billions.

Mr. Coolidge's own wise economy after the war, letting the country get its breath and saving hirdown, was worth several billions to sea.

Dr. Lucas, one of many scientists employed by the telephone company, has perfected a "violet ray" microscope, expected to work wonders in the fight against disease, specifically in treatment of cancer and other malignant tumors.

A violet ray machine, using 10,000 volts, magnifies to an extent absolutely amazing, making the human cell examined seem to jump through the lens.

No work means more to science and progress than that done in laboratories of great industrial corporations, Telephone, Steel, General Electric, Standard Oil and others. They give to their scientists money unlimited and complete discretion in their work. The results are admirable.

Following a typhoid epidemic at Oviedo in Spain, drinking fountains were closed and people ordered to drink only cider. In a week the epidemic vanished. Spaniards believe that apple juice kills disease germs.

Perhaps cutting off a bad water supply had more to do with it. But every human being would be the better for an apple a day at noon and an orange at the morning.

Some one should make a little cider press that could be used at the family table to squeeze out the cider and give it to children with their noon meal fresh from the apples.

Senator Brookhart wants to "bar public utility radio stations from the air." Why not let everybody, corporations included, say what they want to say, according to constitutional provision, assuming that more important matters are not crowded from the ether.

The people are not fools; are able to recognize sincerity, and need not tune in unless they choose. The same course with the honest and the dishonest is to let them talk.

In much talking there is much self-revelation. The stout man at the London aldermen's dinner looked wise and important until the boiled potatoes came on. Then said he: "The jockeys for me," and everybody knew he had never been to Oxford.

If you have a darling pet parrot do not bury your nose or mouth in its pretty feathers, or stroke the parrot and afterward put your hand to your mouth.

FITZGERALD JEWELS MISSING

2 MEN LOST IN PLANE AT SEA

Four Fliers Leave New York to Hunt Those Missing in Fog

New York, Jan. 11 (AP)—Four airplanes today started a search for a plane missing since it took off from Farmingdale, L. I., yesterday on an altitude test flight.

The missing ship, a cabin monoplane, was piloted by D. Mars, who had with him as observer, William Kirkpatrick. The two men took off on a flight they expected to complete within an hour or two and have not been heard from since. The plane is owned by the Fairchild Aviation Corp.

Officials of the aviation corporation said today that no response had been received early today from an appeal broadcast by radio to ships along the coast in the belief the plane might have been blown to sea.

Two Hotels Burn at Asbury Park

Asbury Park, N. J., Jan. 11 (AP)—Two hotels were destroyed and a third damaged early today in the fourth fire of North Shore hostelries within the last two months.

Nassau Hall and the Verdgemere, fronting a block from Second ave. to Third ave. in Kingsley st., were the places destroyed. The St. Clair Hotel, adjoining Nassau Hall in Third ave., was damaged. The total loss was estimated at $150,000. The hotels were unoccupied.

Taft to Leave for Asheville Tuesday

Washington, Jan. 11 (AP)—Chief Justice Taft, under treatment in a hospital here for bladder trouble, was described today as materially improved. He expects to leave Tuesday for a rest at Asheville, N. C.

The chief justice is permitted to leave his bed each day and sit in his room. He is doing a great deal of reading, but is giving no attention to his judicial duties.

Lufkin and Hormel Are Given Posts Here

Washington, Jan. 11 (AP)—Wilfred W. Lufkin was nominated by President Hoover today to be collector of customs in district 4, Boston. Herman Hormel was nominated to be surveyor of customs for the same district. Both men are now finishing terms in the offices to which they will be reappointed.

Goodyear Blimp Is Wrecked in Crash

Akron, O., Jan. 11 (AP)—Goodyear's blimp Puritan was almost completely wrecked early today when it ran into a mountain 10 miles east of Campton, Ky., officials here announced.

Henry L. Smith, pilot, nor A. C. O'Neil, navigator, was injured.

Mussolini Is Scored by Pope

Vatican City, Jan. 11 (INS)—Sharp criticism of Premier Benito Mussolini's vaunted prowess in the physical education of Italian youth was contained in an encyclical issued by Pope Pius here today, in which he claimed that education of youth was the inalienable right of the Catholic Church and the family.

The Pontiff minced no words in his encyclical, which was written in a decisive tone. In particular, he inveighed against co-education and the physical training which Premier Mussolini has caused to be such an important part of the Italian school curriculum.

The Pope deprecated what he termed "errors of pedagogic naturalism," which he declared were "especially damaging in so-called sexual education and co-education," and sharply criticized any "excesses in so-called physical education of children."

The encyclical sets forth clearly the diametric attitudes held by the Pope and the Premier on this question, which has been the one discordant note in the harmonious relations between church and state in Italy afforded by the Lateran treaty.

Three Persons Stricken in Providence; Deaths From the Dread Disease in Two States

The State health department today began an investigation upon receipt of a report that three members of a Providence family were ill of psittacosis, or parrot's disease, contracted from a parrot purchased in this city.

Although not positively diagnosed as such, the Providence health authorities notified the Massachusetts department that the disease was probably psittacosis.

The parrot was brought here shortly before Christmas. It soon died and now three members of the family that owned it are ill.

SHEARER BOMB BARED AS 'JOKE'

Washington, Jan. 11 (AP)—The document given to a Senate committee by William B. Shearer, naval propagandist, and described by him as a secret British memorandum, was identified today before the committee by Dr. William J. Maloney of New York as a skit on British propaganda, written by himself.

Shearer gave the lobby investigation committee a copy of the document during previous testimony before it, while an inquiry into his activities in behalf of a big navy at the unsuccessful 1927 limitations conference at Geneva was being made.

Chairman Shortridge handed the many-paged photostatic print of the so-called secret British document to Dr. Maloney today.

"It seems to me identical," replied Dr. Maloney after hurriedly going over the papers, "with a pamphlet I wrote in 1919—a skit on British propaganda."

Dr. Maloney explained that he wrote the "satire" to offset the propaganda work in this country in 1919 of Lord Northcliffe of the British press.

The article was published and widely distributed to newspapers, Maloney said, and served as an anti-climax to Lord Northcliffe's report. He said 500,000 copies of the article were distributed.

Shearer, who in turning over the document to the committee, dra-

Adams Assailed for Coast Guard 'Slur'

Washington, Jan. 11 (INS)—Secretary of the Navy Charles F. Adams was assailed on the floor of the House today by Representative Lindsay Warren, Democrat, North Carolina, for alleged insults to the Coast Guard because of its dry law enforcement activities.

"His statement is a deliberate slur to one of the noblest organizations on earth and is unworthy of a man in the official family of the President," said Warren.

British Isles Again Swept by Storm

London, Jan. 11 (AP)—Stormy weather again struck the British Isles today after a respite of several days and liners reaching Plymouth reported battling winds that went up to 80 miles an hour.

Torrential rains accompanied by hail and snow struck Wales and in northern midlands, while floods were reported in many districts.

Cram Urges N. E. to Lead War on Dry Law

Coupling the "Newport Massacre" with the shooting of Crispus Attucks, Ralph Adams Cram, famous architect and lecturer, today declared that a ringing call should go out from Massachusetts, home of tradition, to the rest of the country to join his "solemn league and covenant" of men and women.

Prohibition, he said, constitutes as great a threat to the public as taxation without representation, and "when it comes to a vital matter touching the very roots of representation or of society, one must break the existing law."

He drew a parallel between prohibition and the causes for the Boston Tea Party and said "We honor Crispus Attucks and Charles Sumner and they were lawbreakers of their day."

Referring to his suggestion of a "solemn league" of men and women who will pledge themselves to give up their votes rather than cast them for candidates not in favor of the repeal of the 18th Amendment, he said:

"Something must be staked by those who believe in this reform as in all great movements from the Battle of Lexington to abolition."

He went on to point out there

Vermont Folk Flee Rising Flood Waters

Swanton, Vt., Jan. 11 (AP)—The flood waters of the Missisquoi river today were two feet higher than yesterday, with an ice jam seven miles long extending from the mouth in Lake Champlain of the stream to the edge of this town. The cellars of 20 houses in the lower part of the town were flooded, extinguishing furnace fires.

The temperature fell to 15 degrees below zero during the night. The back waters of the river were considerably higher than during the destructive flood of 1927.

The cold weather last night was hoped by residents to prevent further rising of the river. Several families fled from their homes and cattle were abandoned in barns. Several boathouses were carried away.

Selectman Walter Bell announced today that the town would appeal to the federal Government for bombing planes with which to attack the ice jam. The ice had backed into the walls of three mills in the center of the town today.

Temperature Dives 32 Degrees at Springfield

Springfield, Jan. 11 (AP)—A temperature drop of 32 degrees overnight took the mercury to a minimum of 7 degrees above zero today. The Connecticut river and tributaries were still rising under influence of the recent unseasonable warm spell, but it was predicted that the rise would be quickly checked by the reversion to true winter weather.

Dynamite Used to Break Connecticut River Jams

East Barnet, Vt., Jan. 11 (AP)—Dynamite was used today in an effort to break up ice jams in the Connecticut river above Fifteen Mile Falls.

At the Falls, where dam construction work is in progress, the power plant which supplies water at the site was carried some distance down stream. The dam was not menaced, however. The water supply was cut off for several hours.

Colder weather, with a temperature below zero, lessened the danger to the dam.

NEW HUNT FOR 'ICEBOX THUG'

Springfield, Jan. 11—The New England-wide search for Roland Lalone, "Icebox Bandit," and two men with whom he escaped from Wethersfield prison, was speeded up today by the holdup and robbery of Eugene Pederzoli, local druggist.

Two armed men, one thought to be Lalone, who was serving a life sentence for murder of a Connecticut state trooper, held up Pederzoli in his Main st. drugstore, robbed him of $150 and left him bound and gagged.

After two hours' struggle Pederzoli, who lives at 164 Belvidere st., freed himself and called the police. He gave descriptions of the robbers, one of which fitted Lalone.

The robbery occurred at a time when local and state police were hunting Lalone and his two companions in this section since the finding of an abandoned automobile near Southampton, last Tuesday.

Stimulus was given to the search by the report of a Holyoke milkman, Frank Bissell, that he was hailed by three rough looking young men Sunday morning and later gave a ride to one who "thumbed" him.

Lalone, whose home is in Worces-

LOSS SET AT $15,000 BY EX-MAYOR TO POLICE

Dorchester Home Entered in Christmas Week With a False Key, It Is Believed

Jewelry valued at $15,000 is missing from the home of former Mayor John F. Fitzgerald at 39 Welles ave., Dorchester.

A partial list of the jewelry was made public at police headquarters today. The report reads that "the house was entered between December 22 and January 2."

Mr. Fitzgerald said today that as soon as the disappearance of the jewelry was noted he notified the company that insured it and was advised to report to the police.

Although he cannot account for their disappearance, he feels the missing articles have merely been mislaid, he said, and will eventually turn up in the house.

Police believe entrance to the home was gained by means of a false key as no window or door was forced.

A partial list of the missing articles as carried in the police report, is as follows:

Platinum and diamond bar pins, 25 diamonds, value $1000.

Diamond monogram pendant, 200 diamonds, marked J. J. F., value $950.

Platinum and diamond bracelet, 131 diamonds, 30 emeralds, marked 999-I, value $1500.

Platinum and diamond bracelet, 100 diamonds, value $1400.

Diamond neckchain, 109 diamonds, totaling 12 carats, value $2700.

Taft Widow Willed 16,000 Stock Shares

Cincinnati, O., Jan. 11 (AP)—Mrs. Anna Sinton Taft received 16,000 shares of stock in the Times Star Company under terms of the will of her husband, Charles P. Taft, philanthropist and late publisher of the Times Star. The will left most of the estate to the widow and Mr. Taft's two daughters. The value of the estate was not estimated.

Fifteen personal employes such as chauffeurs, gardeners, maids, laundresses and secretaries were bequeathed from $500 to $15,000. Miss Mary C. Cutter, assistant secretary, was given $15,000.

Hoover Is Honorary 'Old Guard' Member

New York, Jan. 11 (AP)—President Herbert Hoover has been voted an honorary member of the Old Guard of the city of New York, the oldest veterans' organization in the country, it was announced today. He has been invited to be the guest of the Old Guard at the 104th anniversary ball at the Hotel Astor January 31.

Former President Coolidge and former Governor Smith are among the honorary members of the Old Guard.

ANTI-SALOON LEAGUE TO FAVOR DRY LAW REPEAL IN TEN YEARS

THEY DISCUSS ISSUE IN SECRET

Leaders Said to Believe Fight Will Be Hopeless if Not Won by Then

By KENNETH CLARK

Washington, Jan. 11—If within 10 more years prohibition is not "dead" to the American people, some of the highest officials in the Anti-Saloon League and kindred dry organizations, believe the 18th Amendment should be repealed, it has been learned.

These officials are not willing to discuss the proposition publicly, because it might be seized upon by opponents as a weakening in their militant attitude, but they are devoting considerable discussion to it privately.

They feel that by 1940 the country will know whether it wants prohibition as practiced under the 18th Amendment. If the country wants it, they feel there will be no great difficulty in enforcing the law by that time.

If, on the other hand, the prohibition experiment proves a failure, they would favor taking the 18th Amendment out of the Constitution as the only remedy for unsatisfactory conditions. Modification of the Volstead act to permit manufacture of light wines and beers does not fit into their scheme.

By outright repeal of the 18th Amendment, they aver liquor control would revert to the states, thus restoring local option.

Those states which wanted to be "wet" legally could do so, while the moist states could adopt a program suited to the wishes of their people.

There is left a big "if" to the program.

The officials who are talking about it believe that in 10 years the sentiment of the American people will be so overwhelmingly dry that the wet opposition will dwindle to a whisper.

EDUCATIONAL DRIVE

In preparation for the next 10 years, the Anti-Saloon League is planning an "educational" campaign unparalleled in its history. The league has already collected and spent $1,000,000 as a starter in this work. More millions will follow.

Plans for the campaign will be launched at the 61st national convention in Detroit next week.

Hoover Speeds Reorganization So as to Enforce Dry Law

Washington, Jan. 11—The Hoover administration today was rushing plans for drastic reorganization of the entire "dry" enforcement machinery.

Aroused by the dry enforcement commission's declaration that the Nation's criminal law machine has broken down, and stung by gibes of both "antis" and "drys," the Treasury, Justice Department and secret service forces joined to speed the President's program.

Preparatory to submitting recommendations for definite legislation on Monday, the commission, headed by George Wickersham, issued a statement in which it forecast demands which are expected to raise law enforcement the dominant question in Congress.

The statement declared:

"Examination by the commission demonstrates unquestionably that the criminal law enforcement machinery of the country is entirely inadequate; that prohibition, automobile theft, white slave traffic, immigration and other criminal laws of the government have overtaxed the capacity and effectiveness of the national machinery for enforcement."

The commission placed organization of federal courts as the major problem in the entire question.

"One of the important factors in emphasizing the need of reform is the cost of crime to the people," said the commission.

CRAM HITS DRY LAW EVILS

Continued from First Page

could be no fitter spot to start the movement than in the very Cradle of Liberty.

"No place in the country," he said, "provides a better setting for the inflation of such a movement than Massachusetts. We have traditions here and the old New England antipathy to oppression and injustice is strengthened by the ever-growing Irish population which has always registered violent opposition to tyranny and oppression."

The movement, according to Mr. Cram, must have the unqualified support of the newspapers, however.

THREAT AGAINST LIFE

"As far as the East is concerned," he pointed out, "the newspapers are really solidly against the continuation of this 'noble experiment.'

"The Newport massacre is a parallel to the shooting of Crispus Attucks and the provocation for the liberty-loving people of this country to act is just as strong as the provocation which resulted in the Boston Tea Party.

"This threat to life, liberty and the pursuit of happiness is equal to the threat of taxation without representation. The talk has resulted in little except building up a realization of what the thing is and getting a psychological basis for definite action."

ONE DEAD WHEN ICY BLAST HITS NEW ENGLAND

Sunshine Helps Boston, but It's Below Zero in Vermont and Maine

One death was reported as a result of the icy blast that swept down on New England today from the Canadian northwest.

Charles Avant, 60, was found dead on the steps of his home in Winter st., Providence, today. The medical examiner said his death was partially due to exposure.

Temperatures of 5 below zero at Greenville, Me.; 2 below at Northfield, Vt., and zero at Burlington were reported. It was 13 above in Boston from 4 to 8 a. m.

Although the sun shone in Boston and vicinity, it was snowing early today in many parts of New England. Northeastern Maine reported an inch or more snow, while the western part of Maine had half an inch. There were traces of snow in New Hampshire, Vermont and western Massachusetts.

According to the official forecast, it will continue cold today and tonight, but will warm up a little tomorrow.

Bostonians who considered it cold in this city today should ponder on the report from Prince Albert, Saskatchewan, Can., where the present cold wave originated. It was 46 below zero there today.

The storm in the West, considered as the worst of the season, caused 13 deaths. Snowdrifts still blocked many highways today. In Chicago and other cities municipal departments had a big job clearing the streets to make them passable. Relief agencies were extended in caring for unfortunates.

Cold weather was welcomed in Swanton, Vt., where the Missisquoi river was blocked behind ice jams after having inundated several farms.

Rain, sleet and snow will probably fall throughout New England tomorrow, according to the official forecast.

FEAR TEACHER ENDED LIFE IN MERRIMACK

Haverhill Woman Vanishes After Leaving a Note to Her Sister

Haverhill, Jan. 11—Leaving a note that she was "going to the river," Miss Annie Smith, Haverhill school teacher, disappeared in scanty attire early today from her home in South Main st.

Her sister, Jeanette Smith, with whom she made her home, discovered her absence and the note when she arose this morning. The teacher's wardrobe indicated that she wore only a light gray coat over her night clothes when she left the house.

Miss Smith is a teacher at the Crowell grammar school and has been ill since November. In her note she wrote that she could not rest and felt she was a burden, her sister reported.

Sergt. Joseph Ryan and Patrolman James Cronin began a search of the banks of the Merrimack river for footprints in the snow.

Police also planned to organize a searching party on the possibility that the teacher may have wandered into the woods.

SHEARER 'BOMB' GREAT JOKE

matically described it as "the amazing secret British document," sat in the committee room today.

Dr. Maloney said he came to New York after he was discharged from the British army for wounds received in the World War.

"The British document" was addressed to David Lloyd George, then premier of Great Britain, and was dated from the British consul's office in New York city. It purported to show the operations of a vast British spy system in America with a view to "the reconquest of America."

Dr. Maloney said that Irish societies were the main purchasers of this pamphlet.

Dr. Maloney said the State Department investigated the pamphlet in 1923 and knew that he had written it.

REGARDED AS JOKE

It was cited at a dinner of Senators here attended by Senator Borah of Idaho, among others," the witness said, "and regarded as a joke as it was meant to be."

He said that Postmaster-General Burleson received the pamphlet from the mails and that two Secret Service men told him the writing of the document "cost me $20 years," but that was all he ever heard of it.

Dr. Maloney explained he did not sue the pamphlet because that would have destroyed its purpose.

To give it an air of "authenticity" an "editor's note" on the flyleaf read:

"A carbon copy of the following incomplete and unsigned document was sent to us with an anonymous note stating that it had been found near 500 Madison ave., an apartment house. Inquiry revealed Sir William Wiseman, chief of the British Secret Service, had resided there."

Dr. Maloney said the Canadian papers "treated it as a jest and published it as an amusing serial."

At Warren, three members of one family are suffering from the strange malady. They are Mr. and Mrs. W. W. McEntire and their daughter Clody. Their home is under quarantine.

In both cases the victims were stricken after pet parrots had died.

Symptoms of the disease are the same as experienced by the victims of typhoid fever, pneumonia and influenza. Those stricken suffer high fever and nausea.

Another Woman Dies of Dread Parrot Fever

Baltimore, Jan. 11 (AP)—Death of Mrs. Louise Schaffte from what University Hospital physicians believe was parrot fever, or psittacosis, turned investigation of the health department today into new channels. The parrot fever which the disease was believed to have been communicated to Mrs. Schaffte was owned by a friend and it was reported two cases of illness in her family were under observation.

6 Deaths in Germany From "Parrot Disease"

Berlin, Jan. 11 (AP)—New cases of psittacosis, or "parrot disease," have been reported and at least half a dozen victims have died in recent weeks.

New cases were reported from Oberarsel, near Frankfurt-on-Main, Duisburg, Bochum and Luebeck. Two cases also were reported in a bird fancier's home in the Berlin suburb of Charlottenburg. Medical aid was being sought by persons who came into contact with these latter cases.

ter; Leo Landry of Revere and Watson Moulthorpe of Danbury escaped from Wethersfield before daybreak on Jan. 4.

Lalone, with Albert J. Raymond, known as the "Ice Box Bandits," was sentenced to life imprisonment after being found guilty of murder in the second degree in the shooting of State Trooper Irving H. Nelson at Pomfret, Ct., April 6, 1926.

The trooper was shot down when Lalone and Raymond were fleeing from police with whom they had a gun battle, after a number of holdups in which victims were locked in iceboxes.

After the Wethersfield jail break the intensive search shifted from Greater Boston to this section. No actual clue was found until Bissell identified a photograph of Lalone as the man he had given a ride.

Pedersoli was alone in his store when the bandits entered. He was counting his receipts preparatory to going home, and the money was spread out before him.

They left him tied in the back room. State police were notified and the alarm was sent to all barracks. In a short time all roads leading from Springfield were covered.

Surgeon-General Cumming of the national health board says parrots are bringing in the country a highly dangerous disease, easily contracted, often fatal. Several cases have occurred in Maryland.

Many "parrots" disease deaths have occurred in Germany, where parrots are brought extensively through the port of Hamburg.

Let parrots and their cages alone until further notice, is the health department's advice.

Extremely puzzling is the news from London that Sir Charles Baron, who presides at Bow st. police court, says there is less drunkenness today than there was 23 years ago when he became a magistrate. That's hard to explain since there is no prohibition in England.

Possibly the fact that the drinking of whiskey and gin is made expensive, while beer is easy to get, may have something to do with it.

A little late for the depressed stock speculators, money has become definitely cheap. You can borrow it in Wall Street at 4 per cent, as much as you want, if you have the collateral.

But with many fellow citizens getting the collateral is the problem, after the big Wall Street wind.

NEWSPAPER GAG LAW FOUGHT BY PUBLISHERS

Suppression of Paper in Minnesota Is to Go to the Supreme Court

Chicago, Jan. 11 (AP)—Freedom of speech and freedom of the press, for which sources fought 22 centuries ago and Milton three centuries ago, will be defended again before the Supreme Court of the United States.

The newspaper publishers of America, under the leadership of Robert R. McCormick, publisher of the Chicago Tribune, will ask the Supreme Court to nullify the Minnesota newspaper "gag" law, under which the Saturday Press of Minneapolis was silenced in 1927 by court injunction. The injunction has recently been held valid by the Minnesota Supreme Court.

McCormick is leading the fight as head of a committee of the American Newspaper Publishers' Association.

On Col McCormick's side is aligned the power and tradition of the American press, the weight of Milton's fight in "Areopagitica," his defense of freedom of utterance in the seventeenth century, the dignitary of Socrates' famous speech to the jury in Athens before it condemned him to death, and the free speech and free press guaranty which is contained in the first article of the bill of rights of the American Constitution.

On the other side is an act of the legislature of Minnesota, four decisions of its minor and major courts, a county attorney who obtained an injunction against the paper which criticised him, and the idea of a legislator who, five years ago, sought to silence a now deceased editor who was attacking him.

The Saturday Press, the paper which was suspended under the law, was published in Minneapolis in 1927 by J. M. Near and Howard A. Guilford. It attacked what it alleged was a gambling and general "racket" business in Minneapolis and declared this situation was being tolerated by the city administration and law enforcement heads.

Floyd Olson, county attorney, whom the paper included in its attack, went before a county judge in 1927 and obtained a writ of injunction under which courts described as the "gag" statute, silencing the paper. The writ was later upheld by the district court and recently by the Minnesota Supreme Court.

SUGAR BOUNTY PROPOSED

Washington, Jan. 11 (INS)—Payment of $50,000,000 annual bounty to American sugar growers will be proposed by the Republican insurgent bloc in the Senate, it was learned today.

The plan will be put forward as a compromise substitute for the problem vexing the forces warring over sugar duties. The insurgents would authorize a bounty of less than a half cent per pound to the American sugar crop. They will defend the bounty as certain to save the American consuming public approximately $50,000,000 a year, against the increase in the general sugar tariff.

The insurgents would fix their bounty at the difference between the existing duty on Cuban sugar—$1.75 a hundred pounds—and the new rate, proposed by the Senate finance committee, of $2.20 per hundred pounds as applied to Cuban imports. This difference, or the amount of the bounty, thus would be 44 cents per hundred weight.

With America producing less than 2,000,000,000 pounds of sugar annually, the toll dole would total something less than $10,000,000 a year.

The insurgents pointed out, however, that the increased tariff on Cuban imported sugar, if effective, would raise the cost of sugar to the American consumers something like $50,000,000, since 12,000,000,000 pounds of sugar is imported annually from Cuba, the duty-free Philippines and Hawaii.

Senator La Follette (R.) of Wisconsin, was stated to introduce the bounty plan as a rider to the pending tariff bill. La Follette favors payment of the bounty to the producers alone, but another group of Senators in the insurgent bloc were reported to favor part of the allowance going to the producers and part to the refinery operators or sugar manufacturers.

Democrats were rallying behind the proposed amendment of Senator Harrison (D.) of Mississippi for retention of the existing $1.76 rate on sugar. He predicted its adoption "if Eastern Republicans will unite with us."

CRUISER LIMIT OF 50 PLANNED

S. S George Washington, Jan. 11 (AP)—Announcement by First Lord of the Admiralty A. V. Alexander in Great Britain that his government would consent at the London conference to limit the number of its battle cruisers from 70 to 50 created considerable interest among the American delegation aboard this ship today.

But it was not believed the announcement would remove British cruiser strength as a live issue from the London negotiations.

The feeling was, rather, that remaining difficulties would have to do with size and type of ships, instead of the exact number.

The French and Italian situation has been frankly puzzling, but Col Henry L. Stimson, Secretary of State, was believed to be confident some solution would be found.

Doubtless one of the first conferences will be with the French delegation head not with the idea of mediation, but in the hope of assuring him that all parties to the conference approach it with a conciliatory spirit.

American delegates are pleased over references by the British first lord of the admiralty to the Kellogg anti-war pact as a basis for drastic British naval reduction.

The Kellogg pact is regarded as an American brain-child. It has been the major premise of all of President Hoover's activity toward naval limitation and disarmament, and Mr. Alexander's acknowledgement of its potentialities for peace was eminently satisfying.

Neither Col. Stimson nor other delegates would be quoted, however, as to the announcing British cruiser needs would be stated at 50 instead of 70.

The announcement of Mr. Alexander came as no surprise to the American delegation, who had been given to understand that that figure about represented the MacDonald government's idea of Britain's needs for security.

It was said as early as last summer, at the beginning of the naval negotiations, that Great Britain would offer a reduction of 20 in its cruiser strength.

The George Washington will be speeded up to get the official party to Plymouth early Friday, so as to enable them to reach London by noon.

Head of College Bans Professor's Story

Orono, Me., Jan. 11 (INS)—"Beef Stew," a short theme written by Prof. Walter R. Whitney, instructor of English at the University of Maine, today stood banned from the magazine Maine Spring by President Harold S. Boardman of the university.

The president ordered that the three pages of the magazine on which the story was written be cut from the publication before being distributed.

The story was an attempt to accurately mirror the speech and thought of what Whitney is alleged to have termed "a study of low degree and a man of corresponding type."

There were but two characters in the story, a man and a woman seated at a table in a restaurant.

While banning the article, the university president said that no official action would be taken against Whitney.

"The phase of life portrayed can be found in newsstand publications and has no part in the makeup of a high grade literary magazine," President Boardman stated in the Campus, a university publication.

Panama in Heated Protest to Costa Rica

Panama, Jan. 11 (AP)—The government of Panama has sent a note to the government of Costa Rica calling attention to complaints of propaganda activities by minor Costa Rican officials along the border and stating that such activities if continued might affect the cordial relations between the two countries.

The note mentioned complaints from Panama border authorities concerning the "systematic advances and peaceful penetration" by minor Costa Rican border officials engaged in propaganda work.

Hazy Weather Holds Up Hunt for Eielson

Fairbanks, Alaska, Jan. 11 (AP)—Hazy weather in the north today added another day of inactivity, so far as aerial search was concerned, in the search for Carl Ben Eielson and Earl Borland and the hunt for Capt. Pat Reid and his two companions, William Hugher and Jim Hutchinson.

SEEK NEW AUTO INSURANCE LAW

Continued from First Page

ably wholly at fault, the operator would be required to furnish proof of financial responsibility in the form of an insurance certificate or a bond. Failure to furnish proof would mean suspension of driving license and registration.

Suspension would also follow a conviction of the more serious offenses and an unsatisfied judgment. License and registration would not be restored until proof of financial responsibility and judgment was satisfied.

The board would also classify all persons required to furnish proof per classification, resulting in higher insurance premiums for them.

The Power bill was characterized by Frank H. Goodwin, chairman of the Boston Finance Commission and former registrar of motor vehicles, as "locking the barn door after the horse had been stolen." He said it gave every operator the chance to kill or maim once before being financially able to pay for the damage.

Girl Mind Reader Exhibits Powers

Miss Gene Dennis of Kansas City, telepathist, gave a demonstration of telepathy to a score of newspapermen and photographers, at the Ritz-Carlton today. In the group was Count Byron Khun De Prorok, distinguished explorer, who is now a guest at the hotel.

The "mind-reader" said she had done considerable work in helping New York police in criminal investigations. When told of the $15,000 of missing jewels at the home of ex-Mayor Fitzgerald she said she would help, if the gubernatorial candidate would call her on the telephone.

Some of the more skeptical reporters present subjected her to tests and were forced to admit she possesses some power.

"Peeper" Suspect Held

Benjamin Grosso, 19, of Oakland pl., Brockton, was arrested today by Brockton police on the charge of disturbing the peace. He was captured after a struggle with John Mara of North Warren ave., Brockton, who says he caught Grosso "peeping" into his house.

ROSENWALD BRIDE GIVEN MILLION IN LIEU OF 'DOWER RIGHTS'

PRENUPTIAL AGREEMENT REVEALED

Bridegroom Likewise Waives All Possible Claims on Wife's Estate

Chicago, Jan. 11 (AP)—The Herald and Examiner said today Julius Rosenwald, philanthropist and mail order company executive, entered into pre-nuptial agreement with his bride, formerly Mrs. Adelaide Goodkind, giving her $1,000,000 in lieu of all rights to his estate.

The newspaper said the agreement was drawn by Mr. Rosenwald's Chicago attorneys. The philanthropist, under terms of the agreement, also waives all rights to his wife's estate.

Mr. Rosenwald, who is generally regarded as one of the country's wealthiest men, was married to Mrs. Goodkind in Philadelphia earlier this week, and they are now on a honeymoon trip to the Mediterranean. He is 67 years old and Mrs. Rosenwald is seven years younger.

FEAR BREAKUP OF FREIGHTER

Providence, Jan. 11—A shift of wind and a falling barometer caused grave fears today that the freighter Edward Luckenbach, aground on Block Island, will break up before she can be salvaged.

Boatswain R. L. Lanphere of the coast guard crew which is standing by to aid the crew of the stranded craft, notified Capt. William Dow of the freighter of the ominous nature of the weather conditions.

With the wind veering to southsoutheast, Boatswain Lanphere said, and the barometer falling, conditions were brewing which threatened the destruction of the ship fast on the rocks of Southeast Point. Captain and crew are still aboard, but the coast guardsmen were ready to take them off at any time. Wrecking craft are en route to the scene.

FEAR 'KIP' IS SNOWBOUND

Las Vegas, Nev., Jan. 11 (INS)—Plans for a rescue party to set out for the snowbound mountain resort of Leonard Kip Rhinelander were being considered today as fears grew that Rhinelander and his party have been cut off from needed supplies by the blizzard.

Since the storm no word has been received from Charleston Park, mountain retreat of Rhinelander, scion of a wealthy New York family.

The camp's provisions will last only until tomorrow, it was learned, and the trip down from Charleston Park would take nearly a week, due to the heavy snowfall.

Rhinelander is accompanied by A. D. Noland, his attorney; Patrick Mooney, a valet, and Mrs. J. Simmons, cook.

Mrs. Catt Sees World Peace in 100 Years

Washington, Jan. 11 (AP)—Carrie Chapman Catt, who is here to preside at the conference for the cause and cure of war which opens January 14, thinks it will be 100 years before peace for the world is attained. She sees the naval reduction conference in London, however, as the crossroads in the present search and thinks some progress may come of it.

When suffrage, to which she devoted 50 years of effort, was attained Mrs. Catt turned her attention to the peace movement.

She sees the popular general interest and demand for information about the naval reduction conference as a most hopeful sign. The press, she believes, has been a potent agency in bringing this open and above board policy about.

Women, in the opinion of this veteran leader of women's causes, are soon due to furnish a surprise to men by the way they vote.

"Men have been measuring the feminine voting population by their own yard stick," said Mrs. Catt. "They think they know just how the women will cast their ballot at every election. Some day their complacent calculations will be completely upset. Women are just getting into their stride and realizing what they want. Before long now their vote will show it."

19 COTTAGES AT BEACH BURNED

Bridgeport, Conn., Jan. 11—Fire which broke out early today destroyed 19 small summer cottages at the extreme eastern end of Fairfield-by-the-Sea near here. Fairfield firemen stood by helpless in the situation because of the lack of water with which to battle the flames. The loss was placed at $10,000.

Working frantically they tried to chop one of the little cottages to pieces and remove it from the path of the flames, in the hope of checking their spread, but the intense heat forced the firemen to abandon their efforts in that direction.

An attempt was made to backfire one of the cottages and prevent the fire from spreading forward in the row of houses by soaking the next house through the efforts of a bucket brigade, but that effort also failed.

Missionary Freed

NO CONTEST ON LA FOLLETTE

Washington, Jan. 11 (AP)—The reshaped Senate Republican organization, with Senators LaFollette, Wisconsin, and Thomas, Idaho, on the finance committee, was approved without contest today by the Republican conference.

Content with getting Senator La Follette on the finance committee, which considers revenue and tariff legislation, the Western independents signified their approval on the new setup.

The "Young Guard" also won representation in having Thomas on the finance committee and the new slate put the faction-split Republicans of the Senate on a working basis.

Senator Jones of Washington was given the chairmanship of the appropriations committee, succeeding the late Senator Warren of Wyoming, and Senator McNary of Oregon took over the assistant leadership, vacated by Jones.

Mexico Seizes Old Archives of Cortes

Mexico City, Jan. 11 (AP)—Agents of the Department of the Interior seized archives of the conquistador, Hernando Cortes, which have been in the possession of Cortes' lineal descendant, Prince Pignatelli of Italy.

It was announced that deportation orders against Pignatelli were still in force and would be carried out today. His apartment at the Hospital de Jesus was closed and padlocked.

Meanwhile Prince Pignatelli has been trying in vain to see President Portes Gil and present his version of the incidents which led to his being charged with being "a pernicious foreigner." The government claims Pignatelli sold relics and records of Cortes which were essentially Mexican property.

Athol Men Plan Lighting Plant

Athol, Jan. 11—Dissatisfied with the rates of the Athol Gas & Electric Co., a group of local business men are considering plans for a private electric power plant to serve buildings on four of the main streets.

Frank W. Fuller, local auto dealer, is leading the movement. The backers will inspect the municipal light plant at Hudson. The rate of the Athol Gas & Electric Co. is 13 cents a kilowatt for the first 25 kilowatts and 12 cents for the next 50.

G. A. R. Commander Calls on Hoover

Washington, Jan. 11 (AP)—Edwin J. Foster, commander-in-chief of the G. A. R., was presented to President Hoover today by Representative Stobbs, Republican, of Massachusetts. Commander Foster is a resident of Worcester, Mass.

The G. A. R. commander was accompanied to Mr. Hoover's office by another veteran, John Reese, of Broken Bow, Neb., a past commander-in-chief of the G. A. R.

REPORTS SHOW CONFIDENCE IN BUSINESS

Hoover Conference Survey Finds Production Near Seasonal Normal

Washington, Jan. 11 (AP)—Encouraging results have attended the activities of the national business survey conference, initiated by President Hoover as part of his economic stabilization program.

Chairman Julius H. Barnes announced in a statement today that reports show the volume of production and distribution to be approaching a seasonal normal and that confidence in the future is unimpaired.

Credit, he said, "is flowing back to productive enterprise," and taking the business situation as a whole, readjustments are being made in an orderly manner.

While recessions have been voted in textiles and in some food producing lines, and the rate of increase in the use of gas and electricity has fallen off somewhat, an upward turn has been seen in savings bank deposits and in life insurance business and, in addition, there has been an expansion in the total number of stockholders of standard corporations.

To the task of "maintaining stability in our various fields of business," Barnes said, "the energy of America's trade and commercial organizations is being earnestly devoted," and "confidence and mutual support grows naturally among the directors of industry."

Prudent business judgment, he declared, is being led by the "ever-expanding requirements of 120,000,000 people" to make room "the necessary extensions, replacements and betterments of plant and equipment in preparation for the future."

ELEVATOR FIRE LOSS $900,000

Cleveland, Jan. 11 (AP)—Flames which still sullenly smouldered early today leveled a grain elevator valued with its contents of grain at more than $900,000.

Twenty-nine companies, utilizing every available fire hose in Cleveland, and crews of two fire tugs battled the and fire for hours in a vain attempt to save the 16-story elevator of the Cleveland Grain Company.

The building was valued at $450,000 and the grain which is stored at around $600,000 by Charles G. Watkins, president of the grain company. It is doubtful whether anything could be salvaged.

The intense heat melted ice 200 feet away. At the height of the conflagration sheets of red hot galvanized iron sailed from the building. Overheating of a dryer was held responsible for the fire by investigators today.

40 HELD IN U. S. VISA ROBBERY

Warsaw, Poland, Jan. 11 (AP)—More than 40 persons are now held in prison here as a consequence of investigation of the theft three weeks ago of an American consulate official stamp used to visa forged passports for entrance into the United States.

The 40 include several subordinate employes of the consulate alleged to have dealt with the emigrants through outsiders, also arrested.

There is little doubt several hundred persons have entered the United States by means of these false visas, sold for $500 to $700 each, and in some instances $1500. The investigation continues, as it seems even others have been involved in the conspiracy.

Gov. Tobey Puts $1000 on Hobbs' Head

Concord, N. H., Jan. 11 (AP)—Governor Tobey today authorized the posting of a $1000 reward offer for the capture of Henry Hobbs, state prison inmate who escaped Wednesday night from the state hospital for the insane after he had attempted suicide in his cell.

Hobbs was sentenced from Atkinson, N. H., for a statutory offense in February, 1920, to serve from 10 to 15 years. He has served time in Massachusetts, one previous conviction there having been for assault with intent to rob and kill.

Columbia Awards LL. D to Gen. Smuts

New York, Jan. 11 (INS)—Gen. Jan Christian Smuts, former premier of the Union of South Africa, today received the honorary degree of doctor of laws from Columbia University.

Gen. Smuts, who is touring the United States on behalf of the League of Nations, received his sheepskin from President Nicholas Murray Butler of Columbia, on the wind-swept steps of the university library.

KEATON'S WIFE, SONS RESCUED

Los Angeles, Jan. 11 (AP)—The wife and two children of Buster Keaton, film player, were rescued from a fire which today destroyed the dining room and children's sleeping quarters in the actor's Beverly Hills home. Keaton was absent from home.

The blaze was discovered by a nurse, who aroused Mrs. Keaton and the children and rushed them from the house. The servants were awakened in time to make their escape.

Mrs. Keaton and the children were taken to the home of Tom Mix, whose estate adjoins the Keaton residence, where they remained for the rest of the night.

Firemen estimated the damage at $10,000.

Fatal Car Driver Fined on 2 Counts

Fall River, Jan. 11—Manuel P. Alves, North Main st. operator of an automobile which struck and killed Joseph T. Medeiros, 57, of Palmer st. shortly after 6 o'clock the morning of December 23, was fined $200 for operating an automobile in a manner to endanger the lives of the public and assessed an additional $50 for driving a car with defective brakes. Both fines must be paid today or Alves will be committed to jail, Judge Cook of the Second Bristol County District Court ordered.

EDDIE CANTOR Rises to Say:

PHILADELPHIA, Jan. 11—

Hoover has just created a new position for Warren Delano Robbins. This gentleman will act as "master of ceremonies" at all Washington social functions. He is the first M. C. without a jazz band.

I can just hear him introducing the vice president's sister, "Folks, here comes Dolly Gann. Give this little girl a great big hand."

He is also supposed to advise Mrs. Hoover as to who should be invited and where they are to be seated.

Mr. Robbins, my advice to you is to have your evening clothes made with bullet proof vests.

DEBUTANTES FETED AT PARTIES

TWO DEBUTANTE PARTIES held the spotlight today as another gay week comes to a close. The Algonquin Club was the scene of the first of these, where Miss Rosamond Holton was honored at a gathering of 125 buds with their escorts. Miss Holton, charmingly gowned in an eggplant crepe picture frock, with matching hat and corsage, was assisted in receiving her guests by her aunt, Miss Eleanor Holton, in black. The table was arranged in U shape and outlined with bouquets of lavender sweet peas and pink roses, with ribbon streamers converging in the center, and lighted by tall candles.

A QUARTET OF LOVELY girls will share honors this evening at the second smart affair, which takes place at the Chestnut Hill home of Mr. and Mrs. Edgar C. Rust, on Reservoir ave. Miss Elizabeth Hovey, in green gold and black lace; Miss Elizabeth Wheeler in pink lace and tulle creation, Miss Nancy Hallowell wearing jade chiffon, and Miss Kathryn Watson in pink lace will receive about 100 friends at an informal dinner dance. Silver cloth will be worn by the hostess, Mrs. Rust, and her debutante daughter, Miss Rosamond, will be in black lace and silver.

AN IMPOSING GROUP OF society's prominent matrons will conduct the work of the Directory, Inc. at 270 Commonwealth ave. for the coming year. Mrs. Fritz B. Talbot, president, heads the committee which includes also Mrs. Rodolphe Agassiz, Mrs. Edward M. Bigelow, Dr. Kenneth Blackfan, Mrs. Thomas P. Brooks, Mrs. Laurence A. Brown, Mrs. Theodore Frothingham, Dr. George S. Derby, Mrs. Osborn Howes, Mrs. Charles G. Mixter, Mrs. J. Harleston Parker, James J. Minot, Mrs. A. Wilder Pollard, Mrs. Phillip Sears, Mrs. Alvin Sortwell, Jr., Mrs. John E. Thayer, Mrs. Bayard Tuckerman, Jr., Samuel Vaughan, Mrs. Bayard Warren and Mrs. Charles C. Walker.

MRS. RALPH BRADLEY, who is serving on the committee with Mrs. George H. Lyman, Jr., for the Cambridge school benefit lecture series, will introduce Fletcher Steele, landscape artist, when he speaks on "The Trend of Modern Garden Design" Monday at the Women's Republican Club at 3:30. Miss Anita Rathbun, in charge of publicity for the lecture here and in Washington and Chicago, will pour with Mrs. Bradley, Mrs. George Olmstead, Jr., and Miss Beatrice Williams of Dinard, France, at the tea which follows the lecture. Patrons of the lecture include Ambassador and Mrs. Claudel, Mrs. Pierce Butler, Mrs. William Howard Taft, Mrs. Charles Francis Adams, Mrs. William J. Castle, Jr., Rep. Edith Nourse Rogers, and Mr. and Mrs. Charles Eliot, 2nd, of Brookline. Princess Cantacuzene (Clarissa Curtis) heads the committee in Chicago where Mrs. Barrett Wendell is assisting.

MANY IMPORTANT SOCIETY women are active in arranging for a lecture to be given at the Hotel Statler on February 8 by Angelo Patri, famous educator, under the sponsorship of the Home and School Visitors Association. Mrs. Algernon Coolidge is president of this association, Mrs. Richard C. Cabot, Mrs. Livingston Cushing, Judge Frederick P. Cabot, Joseph Lee, Henry Shattuck and Miss Elizabeth Putnam, vice-presidents. The committee in charge of the lecture includes Mrs. George D Burrage, Mrs. Charles Cabot, Mrs. Theodore Chadwick, Mrs Arthur L. Chute, Mrs. William P. Homans, Mrs. Roger I. Lee, Mrs. Burnham Lewis, Mrs. Dunbar Lockwood, Mrs. Harvey Towle, Mrs. J. Linzee Weld, Mrs. Byam Whitney and Miss Muriel Haynes. It has a smart list of patronesses.

MRS. EDWARD W. HUTCHINS has charge of the ticket sale for the appearance of Miss Helolse Hersey in behalf of the $10,000 memorial bed in the Hospital Cottages for Children at Baldwinsville, in honor of the late Dr. Edward H. Bradford. Miss Hersey is to speak at the Vendome Monday morning on Priestley's novel "The Good Companions." A long list of sponsors indicates unusual interest in this lecture, at which the Rev. William E. Gardner of Trinity will speak briefly. Among these are Mrs. William C. Conant, Mrs. Joseph Thorp, Mrs. W. C. Bramhall, Miss Ellen M. Dennis, Mrs. George E. Atherton, Mrs. Ralph Lowell, Mrs. Eliot Spaulding, Miss Lucy Lowell and Mrs. Frederick P. Royce.

THE F. WADSWORTH HUSK home on Essex rd., Chestnut Hill, was the scene of a christening party today for baby Rose Lee Busk, the infant daughter of the household. Mrs. Thomas E. Cottman of Baltimore was the godmother who was assisted by Miss Louise Fessenden, the tiny Miss Busk's maternal aunt. Harry Fessenden, Mrs. Busk's brother, served as the baby's godfather. Mr. and Mrs. Cottman (Margaret Bennett) were entertained at a dinner party at the Busk home before going on to the Algonquin subscription dance last evening.

THE TRAVEL CHRONICLE finds a number of the smart set setting out for warmer climes today. Mr. and Mrs. Walter C. Bayles and Miss Ruth Bayles are sailing for Bermuda on the same liner that carries Miss S. M. Codman, Mr. and Mrs. Frederick Winsor and Frederick Winsor, Jr., of Concord. Miss Betty Soule, the attractive daughter of Mrs. Horace Soule of Brookline, and Miss Eleanor Gibson, secretary of the Vincent Club, embark today on the liner Franconia for a six months' tour around the world. Miss Polly Palfrey, eldest daughter of Mr. and Mrs. John Gorham Palfrey of Brookline, sails from New York on Tuesday with Miss Polly Washburn of Worcester for a tour of Southern Europe that will be concluded next August. Mr. and Mrs. George Barnwell Baker of Chestnut Hill plan to leave for a trip along the Dalmatian coast on the last of this month.

Miss Rosamond Holton, who was honored today at a large luncheon given at the Algonquin Club by her mother, Mrs. Herbert Holton. Most of the season's buds gathered for this smart affair.

MISS ANNE C. CROSBY HAS joined her sister, Mrs. William B. Schiller of Pittsburgh, at the Ambassador in New York and will sail shortly for Europe. Mr. and Mrs. George L. Foote of Chestnut Hill and Dublin, N. H., are also at the Ambassador. Mr. and Mrs. Henry B. Sawyer and Miss Elizabeth Sawyer are also visiting in New York, stopping at the St. Regis.

Count Michael Karolyi, Hungarian firebrand, whose socialist activities earned him the enmity of his own land and for a time barred him from the United States, active opponent of communism and fascism, will speak at Ford Hall Forum, Feb. 2, where he will talk on "Fascismo—Danger to World Peace."

GOV. ALLEN TO OUTLINE WELFARE PROGRAM

GOV. Allen will present his social welfare program to members of the State Federation of W men's Club at a luncheon conference at the Harry E. Burroughs Newsboys Foundation, under the auspices of the social welfare department of the federation, on Feb. 13.

A vivid picture of social conditions throughout the state will be painted by the governor, and by members of the children's commission, the commissioners of correction and finance.

The members of the children's commission are Commissioner of Probation Herbert C. Parsons, Commissioner of Public Welfare Richard Conant, Commissioner of Mental Diseases Dr. George Kline, General Secretary M. S. P. C. C. Theodore Lothrop and Rev. George P. O'Connor. Dr. A. Warren Stearns is commissioner of correction, and Charles P. Howard of finance.

STATE FEDERATION

Single clubs, individuals and groups of clubs have been asked by the department of conservation, State Federation, to contribute gifts of money for the planting of trees in memory of Katharine Lee Bates. Contributions to the State Forest could be designated for this and the conservation department would see that the trees were suitably marked.

Mrs. Daniel Goodridge is chairman of the conservation department and she is passing on the suggestion made by the General Federation chairman of forestry, Mrs. Charles Cyrus.

Trees in honor of Miss Bates have already been planted in school yards, parks, club and hospital grounds in New York state. In Massachusetts, her own state, this movement should not be allowed to lag behind.

Legislative conferences for special consideration of the two measures upon which the mid-winter meeting of the State Federation plans to act are being held in the 14th and 15th districts on next Tuesday, in Springfield, and in the 8th district on Thursday, in Melrose.

The Springfield conference will take place at the Hotel Kimball, with Mrs. P. M. Lynch, president of the Hampton County Women's Club and 14th district director, presiding with Mrs. Robert O. Harper, 15th district director.

Frank Brown of the Boston Watch and Ward Society and Herbert B. Burgess will speak on the book law and Capt. Charles T. Beaupre of the State police will discuss the bill to regulate night camps.

Mrs. Anne C. M. Tillinghast will be the chief speaker of the afternoon session and her subject will be "American and the Alien."

Mrs. Frederick Judd, acting state legislative chairman, will present the program.

The eighth district conference will take place at 2:30 p. m. in the Parish House of the Methodist Church, in Melrose, with the director, Mrs. Philip Tirrill, presiding.

Dr. George Spencer and a member of the Watch and Ward Society will discuss the book law, pro and con and Capt. Charles T. Beaupre will present the case of the bill to regulate overnight camps. Harris Reynolds of the State Forestry Department, will appear for the State forestry bill.

The work of the children's commission will be described by Mrs. Alice B. Carter of the M. S. P. C. C., who will illustrate her talk with steroptican slides.

N. E. HOME ECONOMICS ASSN.

The New England Home Economics Association will hold its mid-winter meeting all day on Saturday, Jan. 18, at Simmons College in the Fenway.

The morning session, opening at 11 o'clock, will be in charge of the institutional managers section. Speakers will be Miss Helen Leighton, University of New Hampshire, Miss Alice Carter, Mrs. Claus Sandwald, Miss Daisy Treen, Mrs. Basil F. Collins, Miss Katherine Baker and Miss Esther Hamilton.

Reservations should be made through Miss Elizabeth Goodrich, Simmons College, for the luncheon to take place there.

This Modern World

Edited by ANN ARDEN

A Department Devoted to Fashions, Decoration and Social Customs

Model from Jay's

The blouse is a tuck-in of brown silk printed all over in small white stars. The coat is lined with the same brown silk printed in larger stars. One of the new soft pliable straws is fashioned into the small black hat, with rippling flange brim across the sides and back.

STRAWS that are folded, manipulated and trimmed in the samo manner as softer fabrics will make their welcome appearance for spring and summer. Pastel shades in numerous new straws are expected to become popular, following the earlier wearing of blacks, blues and greens for our first spring hats.

Spring Suit Should Be in Every Wardrobe

Model from Slattery's

AMONG the pleasant early tidings of spring comes news of the suit, which is cleverly insinuating itself into the late winter mode, and which will be most fashionable and prominent for spring wearing. It is appearing in such variety of lines, fabrics and coat length that its versatility and adaptability are unquestioned, and the fashion-wise woman will include one or more suits in her wardrobe planning for the new season.

The suit illustrated in fine imported wool, woven in black and white, is smart for wear right now. Intricate intersecting of the material forms the trimming, on the skirt yoke, a bow treatment on the back of the coat, as well as sleeve bands and front yoke section. The scarf collar may be variously adjusted. The suit boasts a lovely blouse of heavy white silk, which may be worn tuck-in, or as an overblouse

THE smart little draped turban, and muff purse are of silk, all-over braided, and may be had in black or in white. The muff is fastened by a large flap and button, is a completely equipped bag, and may be worn tucked under the arm.

The second suit pictured may be worn under the top-coat, or for spring and early summer. It is of very fine thin wool in Argentine shade, which is closely akin to burnt orange. Both coat and skirt are intricately seamed, the skirt with deep yoke; knife-pleated sections each side; the waist-line belt tying at center front.

The star appears in small, medium and large patterns on many of the new prints, and is shown in white on a blue background, in eggshell on brown or green, and in white on black. Black and white is so very, very smart, and will continue its triumphant march through the spring and summer.

Henna promises to be an excellent color, too. In combination a henna tweed or silk suit, with peach blouse, or henna hat with a peach-colored band are two smart suggestions for this clever color harmony. This lovely russet color combines very nicely with yellow, pink, pale green and pale blue as well as with the newly smart peach.

AUCTION BRIDGE

By Wilbur C. Whitehead

PLAY FOR SQUEEZE.

Comparatively few players consciously try for a possible squeeze. For this reason they miss many squeeze hands; usually by fearing to lead out their last trump. Where they consciously play for a possible squeeze they will lead out the last trump without fear because conscious of the fact that it is this lead that will effect the squeeze, should there be one in the hand. The play of the above hand will illustrate this principle of play.

The Play

Salient Points of Bidding

Auction: South in bidding but one Spade, originally, followed the accepted practice of not pre-empting when holding side strength. West's high card values would be sufficient for a negative double but for the fact that one of his aces is of the suit adversely bid, and his values in Clubs and Diamonds are too remote to warrant forcing a bid by partner.

North passing, East bids two Hearts as there is usually nothing to be gained by a pre-emptive bid after a suit has been adversely named. From this point on the bidding follows conventional lines. West's double of South's five Spade bid being based on the reasonable presumption of being able to defeat contract.

Contract: South with an eight probable trick hand and values in three suits, bids 2 Spades originally; to bid three or four originally would signify that his values are massed in one or two suits and thus fail to provide partner with a correct picture of high card distribution.

West passing, North advances the contract to four Spades. East, holding no defense against a four Spade contract, and conscious of the fact that he is not vulnerable, overcalls with five Hearts, feeling fairly sure that the loss suffered is left in will be compensated by saving game. South promptly overcalls with five Spades, as he figures the possible profit of defeating five Hearts would not be an adequate reward for giving up a probable game in Spades.

West opens the Ace of Hearts and, finding a singleton of that suit in Dummy, shifts to the Queen of Diamonds.

Following this shift, South can count but ten positive tricks in the two hands and can see no possible way of establishing the needed eleventh trick except through a squeeze; therefore, he wins the second trick with his Ace of Diamonds and leads the King of Spades. West wins the trick and leads another Diamond, which South wins in the Dummy and proceeds to lead out all his trumps.

As may be seen, the lead of the last trump will force West to discard either his last Diamond or one of his three remaining Clubs, then Declarer's Three Clubs become good. So played, South must make his contract.

Should he discard the last Diamond, the Nine of Diamonds becomes good. Should he discard a Club,

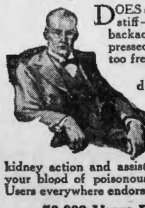
Bothered With Backache?

It May Warn of Disordered Kidneys.



DOES every day find you lame and stiff—bothered with nagging backache—feeling listless and depressed? Are the kidney excretions too frequent, scanty or burning?

These are often signs of disordered kidneys and shouldn't be neglected.

Heed the early warnings. Don't let kidney trouble get a firm hold.

To promote normal kidney action and assist your kidneys in cleaning your blood of poisonous wastes, use *Doan's Pills*. Users everywhere endorse *Doan's*.

50,000 Users Endorse Doan's:

E. E. Tracy, 21 High Street, Waterbury, Vt., says: "My back was lame and there was a constant soreness over my kidneys. When I stooped, sharp pains went through the small of my back and hurt every move I made. My kidneys acted irregularly and my rest was broken at night. Doan's Pills proved their worth to me. One box relieved me."

GARDINER FLAYS BID TO 'LOBBY CONVENTION'

Augusta, Me., Jan. 11 (AP)—The American Taxpayers' League and the National Council of State Legislatures drew the censure of Governor Gardiner today when he declined the invitation of the latter to attend its annual convention in Chicago on January 24.

The Governor called attention to the report of the Senate sub-committee on lobbying and lobbyists published in the Congressional Record of December 20, 1928, which finds the activities of J. A. Arnold, alleged head of the two organizations, "as reprehensible in the highest degree."

The congressional sub-committee charged that Arnold made more than $1,000,000 in four years through the above named organizations and the Southern Tariff Association. The organizations were carried on by Arnold "constantly to influence congressional legislation, but in fact for the purpose of making a living for himself and a small group associated with him," according to the committee report.

"It is unfortunate," the governor said, "that the interests of citizens in public affairs should be capitalized for personal purposes and it is well to scrutinize all organizations purporting to be concerned with governmental activities no matter how high sounding their names.

"In my opinion there is a real need for a national organization of state legislatures, but it should be an authentic one conducted upon just principles. Such organizations as the above should be discountenanced and discouraged by every public-spirited citizen."

According to a letter received by the Governor from the Washington office of the American Taxpayers' League, 36 states have appointed delegates to the Chicago convention of the National Council of State Legislatures. Arnold extended the invitation to the governor and one delegate from each state and offered to pay the traveling expenses of a delegate if funds were not available from the state treasury.

New Haven Has Nine False Fire Alarms

New Haven, Jan. 11 (INS)—An epidemic of false fire alarms which has been raging here for months broke out again when nine were turned in within an hour, four boxes being rung twice.

The alarms were turned in after midnight, and some of the companies of the fire department went into action. Officials have no clues.

A month ago someone slipped behind a policeman who was guarding a fire alarm box in the very center of the town and turned in an alarm without getting caught.

Paris Taxi Drivers End 24-Hour Strike

Paris, Jan. 11 (INS)—Paris' taxicab service returned to normal today following a 24-hour strike of drivers in protest against increased taxes levied by the municipal council.

The drivers decided to return to work today pending negotiations to have the taxes reduced.

FILES BILL FOR CURB ON LIGHT COMPANIES

Wide powers of control by the Public Utilities Commission over holding companies and subsidiaries in all relations with local gas and electric companies are provided for in a bill filed with the Legislature by Attorney Wycliffe C. Marshall of Watertown.

After pointing out that the commission only recently ruled that its authority in respect to inquiry into relations between the Boston Consolidated Gas Co. and the company from which it buys its gas "does not extend to the investigation of what the product cost one of the subsidiaries of a holding company that is selling to the other," Marshall said the adoption of his bill would bring these results.

"Detailed reports will supplant present meager reports made by holding companies and their subsidiaries to the commission.

"Unreasonable intercompany profits will be restrained and squeezed from the cost of gas and electricity.

"Jurisdiction will be given to the Supreme Judicial Court to enforce compliance with all orders of the commission made under authority of the act."

NEW CRISIS ON REPARATIONS

The Hague, Jan. 11 (AP)—The German delegation to the second Hague conference on the Young reparations plan were called upon peremptorily today to furnish a precise statement of what Germany is willing to do to meet demands of the creditor nations.

Dr. Julius Curtius, German foreign minister, about to leave for the meeting of the League of Nations Council at Geneva, was called upon by Henri Cheron, French finance minister, and Philip Snowden, British chancellor of the exchequer, to tell exactly what his delegation proposed to do.

Curtius abandoned his idea of going to Geneva and proposed written proposals by 1 p. m., which the creditor nation representatives intend to consider at 3:30 p. m.

Churches Study Vital Social Matters

"C. O. P. E. C." reports are now in order, according to the Massachusetts Federation of Churches. For several years the Federation has laid plans for a thorough discussion of matters vital to present day living. Churches were asked to organize study classes on such subjects as: "The Social Function of the Church; "The Family," "Christian Citizenship," "Personality and Property," "Economic Problems," and "Religious Education."

Such churches and classes as have taken the suggestion are now asked by the committee on "C. O. P. E. C.," with headquarters at 4 Park st., to send in findings as soon as convenient. It is thought that by the first of June some very valuable data will have been collected.

Holy Name Services at Cathedral Sunday

A 4 o'clock union service led by Cardinal O'Connell will be held at the Cathedral of the Holy Cross. The Rev. Robert P. Barry will preach the sermon. Most of the parishes of metropolitan Boston will assemble at the Cathedral for this union service.

Church and Drama Program Expands

The Church and Drama Association of the Federal Council of Churches, which has made an heroic attempt to encourage fine drama, has now gathered other forces together to labor with it in such a way as to insure notable results. The church organization has expanded to include the Drama League of America, and the American Theater Association. The new body thus reorganized is to be known as the Church and Drama League of America. It will continue the weekly bulletin announcing recommended plays.

Cardinal's Project Inspiring

Here is a modern Boston tea party, and one which should appeal to all who love children. The little girls are three out of a hundred, small and big, who are residents in the St. Vincent Home for Girls on Guyette st., North Cambridge. Cardinal O'Connell not long ago bought from the City of Cambridge the old Alms House, and transformed it into what seems an almost palatial residence for girls who are deprived of parental care. Here is a home thoroughly, even expensively equipped, with all children need for physical, mental and spiritual development. There is little of the institutional air about the place, and nine Sisters of Charity devote their lives to these small charges. The home is prepared to accommodate 75 more and the sisters stand ready to receive them when they come.

'Feast of Holy Name' Radio Topic Sunday

The Catholic radio hour will be given up to a talk by Rev. James A. Brewster of St. Mary's Church, Brookline, tomorrow, at 3 p. m. Music will be rendered by a trio under Mrs. J. Frederick Donnelley of Worcester, organist, director of St. John's choir, Worcester.

DUDLEY ST. BAPTIST

"An Apocrypha Picture of Jesus," will be a special sermon by the Rev. Arthur T. Brooks tomorrow morning. Musical numbers will be rendered by the Concorde Male Quartet.

Talks on Nature to Illustrate Truth

The Rev. Charles W. Casson, a leader of the Camp Fire Girls and a Unitarian clergyman, is delivering a series of Sunday evening addresses in the Parker Memorial, Bulfinch Place Church, on journeys he has made in various parts of America. Tomorrow evening he will describe in his "Travel Trail to Truth" a visit he made through Zion, Bryce and Grand Canyon National Parks. "Where all the radiant rainbows fall, a fairyland of flaming hues with strange fantastic forms."

Boston Catholic Evening Classes

A second term of the evening school conducted by the Young Men's Catholic Association will begin January 6. Registration has increased rapidly. Because of the large number of young people who want to take accounting in the Walton course, a new class will be started and will hold sessions twice a week. There will be a new course in cosmology and in ontology, to begin January 16. There will also be a thorough course on automobile driving. The fee for this course is $5.

STAGE AND SCREEN

SMALL FRY RETARDING THEATRE

By NICHOLAS YOUNG

NEARLY everybody of importance in the broad field of American drama has taken a lusty fling at its visible lapses—even to the point of shedding a saline tear over its anticipated bier. From Eddie Cantor to David Belasco, the sages have lifted voices of deep wisdom mixed with honest consolation. These voices have cried aloud for a new Moses to lead his children from hard times into the land of swelling receipts.

• • •

THEREFORE, may we again introduce Mr. I. M. Herk, president of the Mutual Burlesque Association, as a likely candidate for the job. For, as Mr. Herk plainly tells in his monthly bulletin, it is about time to discard the regular doctors and fall back upon the good old fashioned remedies. Frankly, you are told, the ills of the theater can be cured only by the application of rock-ribbed reason; sentiment and emotion, no matter how judicially, or even reverently used, can never save the groaning patient.

Nicholas Young

• • •

OF course, a good deal of this same round of logic has been heard before, but Mr. Herk completes a new diagnosis of the case and prescribes a radical remedy. His own inventory of the situation in Greater New York which, he insists, illustrates the condition throughout the country, tells its own tragic story of what has happened to the once affluent theater. Give him ear—then ponder. "Thirty-five years ago," he states, "there was not one movie house in this area; today there are more than 300. And the increase in the number of theaters devoted to other forms of amusement is officially registered at 200 per centum, with nothing approaching a proportionate increase in population."

• • •

IN a general way, Mr. Herk holds that the business of making theatrical amusement has lost touch with the item of mathematics. "That these great numbers of theaters can remain in business at all," he continues, "is proof positive that there is no public apathy toward indoor amusements, nor any economic blame for whatever poor business that may exist." But there is an economic reason, as Mr. Herk himself points out in his proposed specific. "If those in control of the motion picture industry would eliminate the thousands of small neighborhood houses that are supplied with pictures that are registered failures, it would not only help their business in theaters known as first and second run houses, but it would have a salutary effect upon the business of all other theaters."

• • •

AND so, it would seem, the wicked film is again regarded as the drama's most deadly infection. In the meantime, however, producers like Florenz Ziegfeld keep right on making shows which the public will accept at high prices. Still there is meat in what Mr. Herk proposes. But who is prepared to play the role of Moses?

Theater's Fare Is Just as Tasty as the Pieman's Wares That Simple Simon Liked

BOBBE ARNST

MISS ARNST is sure an eyeful of beauty. She will appear with Ed Wynn in "Simple Simon," Ziegfeldian production, which will have its world premiere at the Colonial Thursday, Jan. 23.

FRIEDA INESCORT AND DUDLEY DIGGES

ALMOST COME to blows are Miss Inescort and Mr. Digges in "Pygmalion," Theater Guild show opening at the Hollis Monday night. Each seeks to have the upper hand, apparently.

JERRI McCAULEY

MISS McCAULEY is well known along the Mutual circuit. She comes to the Howard next week with the "Record Breakers." She is said to hold some curvilinear records herself.

Gloriously Fair

RHONA FENELY

MISS FENELY shows charm and talent in "The Middle Watch" now at the Copley.

CHARMING THE SNAKES HAS ITS PERILS

IT probably doesn't make a bit of difference, but there is no denying that 15 years ago the first Colored Carnival of the North wasn't any great success in the City of Chicago. All that matters is that Amanzie leaped from the snake pit of that enterprise to the less sawdusty rostrums of South State st.—and then was forgotten, like the carnival that found him.

Amanzie went from city to city, did the best he could, got discharged from the Alabama Minstrels for incompetency, returned to the snake pit of the outdoor amusements, doubled on occasion as the Wild Man of Borneo, went back into the snake pit and was bitten—not by the 'oug to stay in show business, but by the olly reptile Ginger, that had been misrepresented to him.

For several days he was delirious; he squirmed on his bed and the unkind doctors joshed the nurses by saying the patient was more of a dancer than he was a snake charmer. The truth is always funny and, in the truth, a whole career may be changed just like that.

Amanzie revived, went to Harlem, joined Connie's Inn and for a while was in the heaven of happiness at the magnificent wage of $65 a week. Things, at last, were coming his way.

And then came the great day in the life of this humble negro. Connie Immerman, proprietor of the Inn, and his brother, George, decided to tackle the more dignified precincts of pleasure by bringing their Harlem serenaders and shakers to the stage.

Amanzie was to have a place in Connie's "Hot Chocolates"—we say a place because at first he wasn't prominent among the featured players of the fast and snappy musical comedy of that name, which is at the Tremont Theater for a limited engagement.

After the opening night the critics cheered and took their typewriters in hand to write about Amanzie. He was an overnight sensation; he was a new note in negro musicals; he was the last word in acrobatic dancers.

PULPIT LOSES TO STAGE

IN a small country village in the beautiful English countryside of Berwick-on-Tweed, Northumberland, the small son of the vicarage had his heart set on a stage career. But the Rev. Beverley Wilson, who had built up the tiny parish until it held a thriving church and a parish house, hoped and planned that his son would follow in his father's theological footsteps. So J. P. Wilson's education was for the ministry. But the stage was never out of his thoughts. Although parental opposition was strenuous, one of his father's parishioners loaned the youth $50 to join the school of the theater conducted by Sir Frank Benson.

Recently Mr. Wilson joined the group at the Copley, where he is appearing in Ian Hay's naval farce, "The Middle Watch." He is not a stranger to Boston audiences, who last enjoyed his work with Leslie Howard in Galsworthy's "Escape."

GUILD ACTRESS THROWS SOUL INTO VARIED CHARACTERS

RUBY HALLIER, one of the distinguished members of the Theater Guild Acting Company, presenting Shaw's comedy, "Pygmalion," at the Hollis for two weeks, beginning Monday, has an infallible method for getting herself into the "mood" of a role long before the rise of each curtain.

• • •

FOR her characterization of Mrs. Pearce, housekeeper to Professor Higgins in "Pygmalion," she invariably stands in the wings, a most affable, obedient, unctuous type of menial. But for the thieving, crafty, scheming Rummy Mitchens in "Major Barbara," her personality is completely transformed; she elbows her way through groups of stage hands without an apology, talks out of the side of her mouth in the manner of one who, to an outsider, would be a woman sadly in need of reforming. "I get into the spirit of the role this way," Miss Hallier explains. "It enables me to step into the picture with the conviction that I am that person. It all makes for realism."

Ruby Hallier

High praise has been given to this stage veteran's long list of able characterizations. Her sharply contrasted delineations in these two Shaw plays are both carefully thought out and well-balanced studies, executed with a sincerity that adds to the convincing qualities and have marked her as a comedienne of distinction, placing her high in the personnel of the Theater Guild Acting Company.

Miss Hallier's rich quality of compelling humor records many years with some of the most prominent managers and players of this generation. She had long and distinguished theatrical achievements with Winthrop Ames, George C. Tyler, Adolph Klauber, Charles Hopkins, Oliver Morosco, Max Marcin, Leon Gordon, Cosmo Hamilton, Frank C. Reilly and Louis Mann.

One of her happiest recollections is during her appearance in Boston, May 13, 1927. At that time there was a centennial pilgrimage, commemorating the ride which Mr. Pickwick of the Dickens brain took in the "Commodore" on May 13, 1827. On the local occasion she rode, with other members of the company then giving the play here, in the original "Commodore" coach, (which originally ran from London to Rochester, England, a century before) from the State House where the party was greeted by the then Lieut.-Gov. Frank G. Allen, to the Longfellow home at Cambridge, where she was greeted by Mrs. Thorpe, the poet's daughter, and President Lowell, of Harvard.

Miss Hallier came to this country 15 years ago. Her husband was Alfred Donahoe, who first came to America with the now famous tour of "Sappho," starring Olga Nethersole. The couple, until, Mr. Donahoe's death, appeared in many plays together.

Miss Hallier has also had prominent roles in numerous picture productions in both America and England.

TEARS GIFT OF BARITONE TO DIVA'S SONG

WHEN Claudia Muzio sings the brilliant role of Violetta in "La Traviata" here with the Chicago Civic Opera Company, Wednesday evening, February 12, she will wear a costume which is, in every detail a copy of one worn by Marie Du Plissy, the heroine of the novel, "La Dame Aux Camellias," by Alexandre Dumas the younger. "La Traviata" was written on the plot of this novel. The Camille of the play and the book is Violetta Vlery in the opera, but Dumas drew the character from real life.

Marie Du Plissy was a real personage living in Paris and one reason why Mme. Muzio has chosen to copy her costume, which is described and pictured in Dumas' famous book, is because Mme. Muzio's features are in exact resemblance to those of Marie Du Plissy.

Mme. Muzio also very carefully studied the life of Marie du Plissy. Although the role is known as one for a coloratura, and Mme. Muzio is a dramatic soprano, she sings the role in the original key which is a half-tone higher than it is sung by coloraturas. She explains her reason for sticking to the difficult original version:

"If I could not sing it as Verdi wrote it, I would not attempt it at all.

"As to acting: how could I attempt a role that has been acted on the speaking stage by Sarah Bernhardt and Eleanora Duse unless I felt it emotionally. The last act is the culmination of a great drama and if Violetta merely closes her eyes and stops singing to show that she is dead, then the opera has failed. Last year the baritone who sang the duet with me told me that I made him cry. I told him I was glad. His complaint made me very happy."

Principal artists appearing with Mme. Muzio in "La Traviata" are Charles Hackett and Giovanni Inghilleri. Roberto Mcranzoni will conduct.

Gay Burlesquer

DOROTHY FULLER

MISS FULLER sings and dances in "Hello Paree," coming to the Gayety next week.

JUGGLES ART AND HOBBY

ALAN EDWARDS, one of the principals with Ed Wynn in Florenz Ziegfeld's latest musical comedy, "Simple Simon," which comes to the Colonial on Thursday night, January 23, is something of a juggler. Not, however, in the W. C. Fieldsian sense of the word. Alan doesn't juggle rubber balls or cigar boxes. He merely juggles his talents. To be explicit, Mr. Edwards is an actor and an engineer. He is equally at home on the stage and in the laboratory. He can experiment with new dance steps one minute and experiment with new radio sets the next.

His first professional engagement was with the Yonkers stock company, where, over a period of two and a half years, interrupted only by his service in the flying corps, he played something like a hundred and ten parts, from heavies to heroes and back. His first Broadway engagement was as the juvenile lead in "Our Children," and following that he went into musical comedy, where he has been ever since. "One of his notable Boston successes was the leading male role in George M. Cohan's "The Merry Malones." He has also played in pictures.

TWIN STARS E'ER SPELL SPLENDOR

By HARLEIGH SCHULTZ

ERNST LUBITSCH would be enough, but when you throw in Maurice Chevalier, it's bound to be a "wow." So "The Love Parade," now at the Washington Street Olympia and Uptown, proves one of the most entertaining talkies to date. To us it seems the very best of the pictures with words and music. Paramount may well be proud of its twin stars, Director Lubitsch and Actor Chevalier, and their joint product.

• • •

CHEVALIER needs to speak no apology for his poor English. At a time when there was an exodus of foreign lights from Hollywood, he stepped in. His first picture with a trite story was a triumph because of the "Idol of Paris." Being an artist, he oversteps limitations of speech; his art is his universal language. Now comes his second talking picture; it has a pleasing plot, it has likable music, and best of it, it had Mr. Lubitsch behind it. This German wizard could turn almost anything into a good picture; here the sterling wares, plus the Chevalier personality and ability. So what might have been only another mythical kingdom tale—there have been many such—develops into a brilliant achievement. "The Love Parade" has merit that places it on the list of things worth while.

Maurice Chevalier

• • •

THERE is a superfine vein of humor that runs through this operetta. Chevalier is not only a classy singer, happily human and effervescently enjoyable always, but he is a comedian who gets everything his lines contain, and more. And that despite the drawback of imperfect English speech. He dominates the screen ever. He never loses his grip; and if the dialogue strikes danger places of sophistication, he dodges the peril and gives us the laughter only.

• • •

JEANETTE MacDONALD, as the prima donna, is exquisite to see, excellent as to voice and weak only in dramatic power. But toward the finish of this literally long film she meets the demands satisfactorily. Lupino Lane, who is a comic that can be counted on to amuse, is superb; just behind him in merit is Lillian Roth. Eugene Pallette has never failed in any talkie; "The Love Parade" finds him making much out of a small part. Two other good ones are Edgar Norton and Russell Powell.

• • •

DIRECTOR LUBITSCH puts his magic touch to the sweep of the cameras; he tries all the tricks that have made his name famous. Too, he has seen to it that the story swings along smoothly and plausibly; more than that, most interestingly. We can account it an extra added joy that his star happened to be the excellent Parisian; working together, they have effected a combination hard to beat. Because of them "The Love Parade" gives evidence of the fast strides the talkies are taking, and offers an all-around tip-top 100 minutes of delight.

HELEN MORGAN

MISS MORGAN plays the role of a burlesque queen mother in "Applause" at the Fenway.

Plays Remaining

Fritzi Scheff in "Mlle. Modiste" at the Majestic. (Second week.) What your daddies used to applaud when they were gay young blades. The last week.

• • •

"Pleasure Bound" at the Shubert. (Second week.) Rough and ready musical revue aimed at the customer whose taste demands rich seasoning.

• • •

"Hot Chocolates" at the Tremont. (Fourth week.) Just a lot of colored boys and girls who know their stuff—and do it.

• • •

"The Middle Watch" at the Copley. (Fourth week.) It seems the British Navy is a little careless in the matter of fair guests aboard ship.

• • •

"The House of Fear" at the Plymouth. (Fourth week.) A few well-planted ghosts do the work of detectives in this mystery comedy. The last week.

Smiles Will Make Us Happy Even When Mum's the Word

VIVIAN DUNCAN—LAWRENCE GRAY

MISS DUNCAN seems to be flagrtripping Mr. Gray off; perhaps he is making a rash promise. They're in "It's a Great Life" at Loew's Orpheum next week. Eyes have it here.

DOROTHY SEBASTIAN—HELEN PARRISH

HELEN IS ONE of the bright youngsters in the movies. She and Miss Sebastian are seen in "His First Command" at the Keith-Albee. They are really quite chummy, these two.

The New Play

HOLLIS — Bernard Shaw's "Pygmalion." Fifth and final of the Theater Guild's subscription season presentations. One of the most popular of Shaw's comedies, "Pygmalion" pokes amusing jibes at social differences. In the cast are Frieda Inescort, Dudley Digges, Elliot Cabot, Percy Waram, Jane Wheatley, Phyllis Connard, Edgar Kent, Winnifred Hanley, P. J. Kelly, Geoffrey Harwood, Ruby Hallier, Isidor Marcil, Maurice Wells, Margaret de Mille and Jack Quigley. Settings by Jo Mielziner. Staged by Dudley Digges.

Camille Herself

CLAUDIA MUZIO

MME. MUZIO will appear with the Chicago Opera Company in Boston in February.

ERIC VON STROHEIM IS BOOKED FOR 'THREE FACES EAST'

By LOUELLA O. PARSONS
Universal Service Motion Picture Editor
(Copyright, 1930, by Universal Service.)

LOS ANGELES, Jan. 11—Good morning. Have you heard that at last Eric Von Stroheim has the good sense to concentrate on acting and to leave the directing to some one who has more of a money sense and who does not need the Bank of England to direct a movie. Mr. Von Stroheim, who gave such a really good performance in "The Great Gabbo," has been engaged by Warners for "Three Faces East."

• • •

I SUSPECT he will have that delightful role of the German spy which Emmett Corrigan created for the stage. Anthony Bushell, English player who played the juvenile lead in "Disraeli," will help furnish the love interest in "Three Faces East." Darryl Zanuck who is arranging for the production of Anthony Paul Kelly's war drama explains that Warners will convert this highly exciting tale into a talkie and not the Fox company. Darryl also takes time to inform us that Roy Del Ruth will direct "Three Faces East."

Louella O. Parsons

I wonder who will play the blonde heroine. Notice I say blonde. That's because Violet Herming played the role of the girl on the stage and her performance still stands out in my memory as being an unusually fine piece of work.

• • •

ALICE DUER MILLER, who writes pleasant light fiction about pleasant light people, has sold "The Princess and the Plumber" to the Fox Company. Mrs. Miller usually does sell her fiction the moment it is printed. "Manslaughter" was purchased in the galley proofs, and I am told the Fox Company put in a bid for "The Princess and the Plumber" five minutes after it was read by the scenario department. The Miller tale is intended for Charles Farrel and Janet Gaynor and Al Santell is slated to direct. There isn't a chance that these two will be separated, as Ronald Colman and Vilma Banky were by the latter's marriage. Why kill the goose that lays the golden egg? Janet and Charles together are a big drawing card. Separated they might not be so valuable.

• • •

BARBARA BENNETT, the brunette sister of the Bennett family, is traveling to Hollywood with her youngest sister, Joan. Barbara, whose career has been more as a dancer than an actress, will probably follow in the footsteps of her two sisters, Joan and Constance, and join the movies. Although we get it from a friend of the family that young Downey, who happens to be the husband of Barbara, is opposed to his wife making a picture in Hollywood, she did appear opposite him in one movie made in the East. Joan as we stated before has been borrowed from United Artists by Fox. We learn she will be featured in Vincent Lawrence's stage play "In Love With Love." Very interesting news, too, is the word that Lumsden Hare, excellent stage actor, will play opposite the blonde Joan. Hamilton Modden, a Fox importation from the stage, will do the directoral honors.

• • •

SNAPSHOTS of Hollywood collected at random: Dolores Costello and John Barrymore having tea at the Hollywood Plaza Hotel. Wallace Beery, Charlie Chaplin and Georgia Hale enjoying a late supper at Henry's. Mack Sennett and Roscoe Arbuckle reminiscing over old times. Leo Morrison, theatrical agent, back home after having negotiated contracts for Beatrice Lillie, Joe Cook, Chick Sales, Lionel Atwill and others in New York. Mrs. Jack Warner sharing in the congratulations given her husband on "The Show of Shows." Constance Talmadge and Townsend Netcher moving in from the beach until the rainy season subsides and summer comes again. That's all today. See you tomorrow!

STAGE AND SCREEN

HANDS ACROSS THE SEA AID BIG FILM

WITH eight of its leading players and technicians British by birth, with hundreds of "extras" selected with regard to their ability to talk English rather than "American," "The Sky Hawk," all talking feature, now playing at the New B. F. Keith's, has for its hero John Garrick. Under his real name of Reginald Dandy he is well known on both the London and the Australian stages.

John Garrick

Lennox Pawle and Lumsden Hare, who portray the fathers of the juvenile principals, are both Britishers and educated in London, although Hare was born in Ireland. Llewellyn Hughes is a Welsh actor-writer. Campbell Gullan is a well known British actor and stage director.

Billy Bevan and Daphne Pollard, who supply most of the comedy in the film, are originally from Australia.

The technical details of the British flying scenes and of the training airdrome were in the hands of Capt. Sterling Campbell, an American who joined the R. F. C. and became one of its ranking aces, with a record of 34 German "planes and eight balloons to his credit.

Gilbert Emery, who heads the supporting cast, has been frequently considered an Englishman, but he is an American, although he has lived extensively in London.

While the Fox Movietone picture was produced in an aruted Hollywood, it might well have been filmed in England, so perfectly has Director John G. Boystone and William Darling, the art director, reproduced the elaborate settings, according to reports.

Helen Chandler enacts the leading feminine role opposite Garrick.

Rita Neve Recital

Nita Neve, English pianist, will give a recital in Jordan Hall next Monday evening.

Every Cue His Meat for a Clue

WILLIAM E. GREEN

ARTIST SCHMIDT catches Mr. Green during one of the latter's big moments in "The House of Fear" (Plymouth). Mr. Green has the detective role. He is just putting his finger on a new clue.

WOMEN HIT BY 'KIBITZERS'

WOMEN suffer more than men at the hands of kibitzers, according to Harry Green, who, as the kibitzer in "The Kibitzer," Paramount's all-talking comedy, now being shown at the Metropolitan, has made a deep study of the art of kibitzing from all angles.

"But of all the kibitzers, who disturb the peace of womanhood, probably the worst is the husband who advises his wife to learn to bake pies like his mother used to make," Green declares.

"All through her life, woman faces the taunts of kibitzers, the number of which appears to increase with her age. The first one to cross her path is the 'big brother,' who proves to be most generous with free advice. Next, as she grows up, her father assumes the role of kibitzer, dwelling on the length of her skirts and the selection of the 'boy friend.'

"The 'boy friend,' himself, in turn, proves capable of a little kibitzing of his own, by telling her what is wrong with her automobile driving. On top of all the kibitzing to which women fall heir, they can't seem to resist Kibitzing each other."

VISIT BRINGS BIG CHANCE

PATSY RUTH MILLER, featured in "The Aviator," the latest Vitaphone production that is now making its first Boston showing at the Scollay Square Olympia, was born in St. Louis, Mo., in 1904 and educated in the private school of her native city. When her family visited California in 1921, dark-eyed Patsy was offered a part in one of Buster Keaton's pictures. She was then chosen to play opposite Lon Chaney in "The Hunchback of Notre Dame," and followed this success with "Daugh'ers of Today."

Miss Miller next elected to be a free-lance player, a venture in which she was successful. She is now a Warner Bros. star.

Six Shows Scheduled for Amos 'n' Andy Today

"Amos 'n' Andy," now appearing in person as a feature of the stage show at the Publix Metropolitan, have proven so popular that the management arranged for them to give an extra show today, making six for the day. The extra show in the forenoon accommodates the children, "Amos 'n' Andy" appearing at 10:52. Their remaining schedule today follows: 1:05, 3:18, 5:31, 7:44 and 9:57.

LOEW HOUSE'S PRAISED BY GOVERNOR

IN a communication addressed to the management of the Loew theaters in this city, Governor Frank G. Allen expressed his congratulations on their Loew January festival.

The Governor's message also carried endorsement of this theatrical organization in being among the first to heed President Hoover's call for the nation to go forward in 1930 with a bigger and better expansion program in every line of business.

The Loew festival month, with the most elaborate of stage productions and the finest of photoplays in the history of their organization playing before some 20,000,000 people in their hundreds of theaters all over the country, is meeting with the cooperation of merchants and manufacturers in their various communities.

Chambers of Commerce and trade boards have endorsed the cheer-up program, and every effort is being made to prove to the nation that 1930 will be a banner period of prosperity.

Irish Minstrels Change Their Bill Tomorrow

Emmett Moore and his Irish Minstrels have proven popular for the past week with their big stage and screen attraction at the Arlington Theater. Beginning tomorrow evening, at 8:15, with matinees Wednesday and Saturday, the famous Irish Minstrels will be seen and heard in "My Native Land." This will be the last week Emmett Moore and his minstrels will appear in Boston this season.

Four Flying to Cape Town

Cairo, Egypt, Jan. 11 (AP)—Four machines of the Royal Air Force took off from Cairo today where they expect to arrive Feb. 1. The men are on the fifth successive annual flight from Cairo to Cape Town.

Polar Patience

VIRGINIA VALLI

MISS VALLI is the sweetheart in the polar film, "The Lost Zeppelin," at the Park.

THE SKELETON EVEN ACTS

ALMOST as many mechanical and trick experts are employed back of the scenes in "The House of Fear," now entering its fourth and final week at the Plymouth, as there are players in front. Very little credit is given these men, who are really one of the most important factors to make a production of this kind successful.

The action of the play calls for surprises in rapid succession, such as ghosts floating through the air, a skeleton gliding here and there, the lotus plant that blooms in front of your very eyes, things vanishing from sight and last but not least, is the phantom that flutters out over the heads of the audience.

All of these things come under the head of the mechanical department and just one missed cue is liable to spell an entire scene, so these men are constantly alert. Everything being timed to the second, and in order to make double sure of no mistakes, two stage managers are employed, one being stationed on each side of the stage.

DEDICATE NEW AIRPORT PLANT TONIGHT

By GEORGE HAMBLIN

East Coast Aircraft Corp's new building will be dedicated tonight, and will be open tomorrow for public inspection.

According to the "world's busiest man," Frank LeMan, who hasn't had a decent night's sleep in the past month or so, what with all the details necessary for the dedication on his mind, about 100 invited guests will attend the banquet and dance.

Mayor Curley notified LeMan that he would be unable to attend, but had commissioned Joseph A. Conry, traffic commissioner, to represent him. Park Commissioner William P. Long and Airport Superintendent Albert L. Edson will comprise the representatives of the city.

The list of invited guests looks like a Who's Who in aviation, for almost everyone of the big boys in the Curtiss-Wright group in New York have been invited, and a whole tri-motor Ford load of Wright Aeronautical officials will be flown up.

The Travel Air monoplane in the showroom will be removed and the caterer will set up his tables. As the floor has been varnished and waxed, dancing will follow the banquet.

A little thing like snow, sleet and rain doesn't mean a thing to Crocker Snow, president of Skyways, Inc., for that worthy defied the elements, climbed into a Moth and flew to Springfield with a document that bids to be court in Springfield before 3 o'clock.

Gus Ham, chief pilot for the Walter S. Rogers and Associates, is walking around with his chest stuck out a mile, and grinning all over his face, because his first student, Eddie Steptoe, of Dorchester, went solo in the Davis monoplane after only three hours and 20 minutes of instruction.

The largest gasoline tank ever seen on the airport, with a capacity of 12,000 gallons, was lowered into the ground outside East Coast's building. One of the most interested spectators who braved the cold wind and sleet was Eddie Edson, who remarked that the tank would hold enough gasoline for him to drive his car for umpteen years.

Dill Attacks Radio Board He Created

Washington, Jan. 11 (AP)—An attack against the distribution of radio facilities by the federal radio commission was made today before the Senate interstate commerce committee by Senator Dill, Democrat, Washington, author of the federal radio act.

All the Joys of Home for Ape Colony

Jacksonville, Fla., Jan. 11 (AP)—Representatives of Yale University, who desire to study the reactions of a colony of apes placed in a model American community, contemplate construction of seven buildings near here at a cost of about $100,000.

Small bungalows for the occupancy of anthropoid families with several bedrooms in each dwelling are planned. Individual drinking fountains, recreation quarters, a swimming pool, a hospital and a

Plan Open Contest for War Memorial

Open competition among architects for a design for the Massachusetts War Memorial will be recommended by the special commission named by Governor Allen.

The non-utilitarian type of memorial is also recommended.

The commission will file its report with the clerk of the House of Representatives within two weeks, and according to present plans the report will embody a recommendation that the Legislature appropriate a sum of money to be used as a prize for the best plan for a memorial submitted by an architect. garage are among the facilities to be placed at the disposal of the apes.

A thermostatic heating arrangement will afford the same temperatures which the apes enjoy in their native land.

The residences, while presenting all the outward appearance of small bungalows, will be reinforced with stone and steel.

Revere Man Dies From Auto Injuries

William M. Finley, 69, of 202 Fenno st., Revere, father of Lieut. Henry Finley of the Revere fire department, was killed by an automobile today while hurrying to his work. Metropolitan police allege that Thomas W. Dowd of 43 Bashwood st., former Revere police reserve officer, operated the machine.

Dowd took the man to the Chelsea Memorial hospital, where he died soon afterward from a fractured skull, spine and two legs. The accident occurred on the boulevard along the Parkway, and Dowd said his first knowledge was the impact of the body against the car.

Buys Summer Hotel

Williamstown, Jan. 11—Announcement was made of the sale of the Greylock, one of the leading summer hotels in Western Massachusetts, to Henry W. T. Dutton of Brookline, lessee of the Lake Spofford Hotel at Spofford, N. H.

A Wonderful Love Story by Author of 'Hollywood Girl,' 'Easy.'

What Has Happened Before
Armed with happiness, love and youth, Tom Nicholson and Lovejoy Mason are married. Tom's salary is small. They take a tiny flat.
Now Go On With the Story

CHAPTER 2

WHEN the wedding supper was over Aunt Em followed Lovejoy into her own room to help her pack her clothes.

"I'll take them all home with me tonight," the girl decided, pulling a little flat steamer trunk from under her bed.

Aunt Em shook her head. "You can't," she said briskly. "Half of them need mending, and the other half need pressing and cleaning. So you'll just have to leave them here until I can get at 'em. . . . Goodness knows you'd never be able to fix them up yourself, Lovejoy Mason."

And that was the truth. Aunt Em had done more than her duty for her dead sister's child all her life. She had waited on her hand, foot and finger for 20 years.

She had mended her clothes, washed her head, brought her breakfasts to her in bed, kept her room clean, done a hundred and one things for her that most girls do for themselves.

The result was that Lovejoy without a penny in the world, was as helpless as a baby and as spoiled as a pampered daughter of a millionaire.

"I'll put some things into a suitcase for you," Aunt Em decided, and dragged a shabby straw case out of the clothes-closet. "And on Monday, I'll get to work on the rest of your clothes—Lovejoy, what am I going to say to Steve Oglebay when he calls up?"

Lovejoy, picking up her brushes and bottles from the dresser-top, frowned. She put her bright head to one side and studied her reflection in the mirror before her with somber thoughtful eyes.

"Well, he'll have to know I'm married sooner or later," she answered slowly. "So, you'd better just tell him the truth. He's known for a long time how much Tom and I think of each other."

She gave her shoulders a little shake as if she were shaking herself free from the very though of Steve Oglebay. Steve, who had wanted to marry her for three years and who never had had the ghost of a chance with her.

But it wasn't so easy to put him out of her mind just then.

For the very bottle of perfume that she held in her hands had been a birthday present from him a month before.

He had given her the photograph of himself that hung on her wall in a silver frame.

On the little table beside her bed was a package of books that he had sent to her only yesterday.

"He called up at four this afternoon," Aunt Em said after a pause. "I told him to telephone tomorrow morning, so I suppose he will."

She sighed. "He's the man I would have liked to see you marry," she added with all the frankness in the world. "He had everything I wanted you to have. Money and position and—"

"Money!" Lovejoy's eyes were full of sudden scorn and she snapped her fingers to show how little money meant to her. "Who cares about money?"

"You!" her aunt told her with snap and vigor. "You care about it. You don't realize it yet, because you've never had to do without it. You've always had me to look after you, and your Uncle Jim to put pennies into your pocket when you needed them. But wait until you haven't the price of a manicure in your purse, and your clothes begin to wear out, and so on and so forth. Wait 'til the pinch comes. You won't be so ready to snap your fingers, young lady."

But right from the beginning they did snap their fingers at money—Lovejoy and Tom.

Right from the beginning they snapped their fingers at their poverty. They chuckled over it under their chin. They kidded it, and made it their pal.

There is an old saying that goes like this:

"When poverty comes in at the door,
Love flies out of the window."

But that wasn't true of the young Nicholsons.

Poverty was right with them from the start, even on that first Saturday night when they came home to the little flat and stepped into the living-room with their bags and bundles.

Tom switched on the light and stood looking around the pretty room with a dissatisfied expression in his blue eyes.

"I should have bought a whole lot of flowers for this place—and I know it," he said, his hands in his pockets, jingling some loose silver in them. "Every bride ought to be smothered with flowers on her wedding day. But, Lovey, I just knew I couldn't afford them."

His eyes swept the cream-colored walls of the little room.

"It looks awfully bare, doesn't it?" he asked.

Lovejoy shook her head. She came [illegible] to him and laid her copper-and-gold head on his chest.

"Listen to me, Tom Nicholson," she said. "If any one asked me what Heaven looks like, at this moment, I'd say that it had a room with cream-colored walls."

She pulled him down upon the green couch beside her, and ran

$10,000 FIRE SWEEPS MEDFORD CHURCH HOUSE

Trial by Jury in Contempt Cases Provided by New Bill

2-ALARM FIRE IN CHURCH HOUSE

Fine Old Medford Mansion, Now Owned by St. Joseph's Parish, Damaged

Fire swept through the Community House of St. Joseph's Parish in High st., Medford, today, destroying the westerly side of the building from cellar to roof and causing $10,000 damage.

Two alarms were sounded and help was called from Somerville and Arlington. In near-zero weather firemen battled for five hours to save the building.

The house, located between St. Joseph's Church and the parochial school, was purchased several years ago and plans had been under way to remodel it for use as a convent.

It was once the Thatcher Magoun mansion and regarded as one of the finest Colonial structures in the city.

The fire was believed to have started from an over-heated boiler, which set fire to the woodwork in the basement and spread rapidly through to the roof.

Ten Driven Out in Fire on Corey Hill

Ten persons fled to the street in near zero weather early today as fire swept the lower section of an apartment house at 23 Lancaster ter., Brookline, and menaced many other homes in the exclusive Corey Hill district.

The fire, of undetermined origin, started in the basement, mushroomed along the ceiling and broke through into the first floor. A passerby, seeing smoke, sounded the alarm.

The families driven out were those of Mashie Berenson, occupant of the first floor; Henry Masters, second floor, and A. B. Kagan, the owner, who occupied the third floor.

The building is a three-story brick structure. The occupants were forced to grope their way down a corridor filled with smoke to reach the street.

They took refuge in homes of neighbors while firemen battled the flames. The loss was estimated at $2500.

Temple Brotherhood Will Give Ball

The brotherhood of Temple Ohabei Shalom on Beacon st., Brookline, will give its annual ball and entertainment next Tuesday evening in the temple hall. The committee, headed by Benjamin Shapiro, has arranged an excellent evening and has received the assurance from several well-known theatrical and radio stars that they will appear and entertain the gathering.

The proceeds are pledged to pay the balance on the newly installed temple organ.

Sail for Mexico to Study Mayan Ruins

Bound on an exploration trip among the Mayan ruins, a party of New Englanders will sail Monday on the Ward Line steamer Monterey from New York.

The party includes Harry B. Roberts of Cambridge, A. V. Kidder of Andover, C. G. Shattuck and George Bennett of Boston.

From Progreso, Mexico, they will go to Merida, capital of Yucatan, and then work inland to the field base.

To Wed Broker

Mrs. Phyllis A. Cabot, widow of Norman W. Cabot of Brookline, whose engagement to John Amory Lowell Blake of Beacon st. and Beverly Farms, Boston broker, has been announced. No date for the wedding has been set. (Staff photo.)

WOMAN IN HOP TO FLORIDA

Mrs. Joan Fay Shanklin took off from Boston airport today on a solo flight to Miami, Fla., and return.

Her husband, Lieut. Clarence S. Shanklin, U. S. A., hopped off shortly afterward in the expectation of reaching Washington, her first scheduled stop, before she arrived.

He will fly back from Washington tomorrow, while Mrs. Shanklin continues to Miami, where she will stay a month. She is Massachusetts' first commercial-licensed woman pilot and the first woman to fly solo from the Pacific Coast to Boston.

She lives in Beacon st., Back Bay. Lieut Shanklin is the regular army inspector of the National Guard aviation unit here.

Dorchester Youth Held in Car Theft

After a seven-mile police chase, Willard C. Theall, 16, of Dorchester, was arrested shortly after midnight near the Milton-Randolph line, charged with larceny of an automobile.

His was bound over under $600 in Quincy District Court to the juvenile session on January 24, but was immediately re-arrested to answer to charges later in Brockton

BILL IS FILED TO WIPE OUT 13 CROSSINGS

Planning Board Sees Way to Speed Up Traffic on the Main Highways

Augmenting its report to the Legislature on the importance of separating grades at key highway junctions, the Metropolitan Planning Division today recommended, in an accompanying bill, the elimination of crossings at seven places in Boston, two in Somerville and four in metropolitan parks or property.

The division says it is convinced the capacity of many highways can be increased at least 5 per cent by the construction of overpasses or underpasses which will prevent delays at these intersections.

Improvements of such lasting character, the division adds, should be financed by bond issues outside the debt limit.

The grade crossing eliminations urged are:

An overpass carrying Blue Hill ave. over Morton st. for vehicular traffic and trolleys.

An underpass carrying Commonwealth ave. under Massachusetts ave.

An overpass carrying Commonwealth ave. over the entrance to the Cottage Farm bridge.

An overpass or underpass carrying Commonwealth ave. over or under Harvard ave.

An overpass carrying Commonwealth ave. over Washington st., Brighton.

An overpass carrying the Riverway over Brookline ave. together with a vehicular circle to facilitate the movement of traffic.

An overpass carrying the Riverway or the Jamaica Plain parkway over Huntington ave.

Overpass carrying the Revere Beach parkway over Broadway and Main st., Everett.

Overpass carrying the Revere Beach parkway over Broadway in Revere.

Overpass carrying Memorial drive over the approach to the Cottage Farm bridge.

Overpass carrying the Northern artery over Washington st., Somerville.

Overpass carrying the Northern artery over Broadway in Somerville.

Roadway and underpass carrying Beacon st. under Harvard bridge, the roadway to begin at the intersection of Beacon st. and Hereford st., and pass over Hereford st., and on a fill in the Charles river basin under the Harvard bridge and back over Charlesgate east to the intersection of Charlesgate east and Beacon st.

'Johnny' Hayes, Grid Star, Takes Bride

"Johnny" Hayes, former University of Pennsylvania star end, was married today in St. James' Church, Medford, to Miss Josephine Sullivan, Medford, a schoolmate. The young couple, who attended the Prescott school together, were married by the Rev. Dennis Murphy.

Hayes resides at Woodlawn st., Jamaica Plain. He won athletic prominence under "Skip" Sherlock at the High School of Commerce.

U. S. MEN DENY HUB RUM QUIZ

"I know of no particular investigation of the Boston police liquor squad by the federal authorities," Asst. U. S. Atty. Hubert C. Thompson declared today in commenting on the report that a federal investigation was under way.

"Are the federal authorities investigating the Boston police department liquor squad?" Thompson was asked.

"As a squad in its entirety, no; as regards any individual in the police department, I'll answer neither 'No' nor 'Yes.'"

If such an investigation were under way Attorney Thompson would take charge of it. He disposed of the story further by adding, "Nothing has happened during the last few days to change our activities here at all."

He asserted there was no special drive against the rum element and that prohibition is progressing in a normal way. Thompson denied knowing about a Boston clergyman approaching either city or federal officials relative to the alleged activities of a Boston rum "king."

Pastor Going to Detroit

The Rev. J. Harrison Thompson, pastor of the Wollaston Baptist Church for the past four years, announced he had accepted a call to become pastor of the Northwestern Baptist Church of Detroit, one of the largest churches in that city. He came here four years ago from the Ruggles Street Baptist Church of Roxbury. He is a graduate of Brown University.

Thousands of Bugs Land in Hub to War on Borers

Thousands of tiny insects, destined for a war against the destructive corn borer, today were unloaded from the Dollar liner President Monroe at Hoosac tunnel docks, Charlestown.

The insects were consigned to the U. S. Department of Agriculture laboratory, Court st., Arlington.

Quite by accident their hardiness was shown at quarantine when, forgotten in the holds, they survived the deadly fumigation process that rids the ship of certain possibilities.

Stowed in tins at Genoa and Marseilles, they were packed in one case at the latter port and were placed in the refrigerator compartment for the trip across.

Their use was decided on after specimens from Japan and China had failed to make any progress against the borer.

Capt. Robert Dollar, owner of the lines, has been co-operating with the government in the work, using his ships to transport the tiny experimenters free of charge.

Would Derive State Amateur Bout Fund

Establishment of a state fund to be derived from the proceeds of amateur boxing bouts for the purpose of providing vocational education for the participants of such bouts is proposed in a bill filed with the Legislature by Representative Michael Zack of Lynn. The petitioner for the legislation is Edward E. Keevin.

FEAR BROTHERS HAVE PERISHED

At a late hour today coast guard searchers along the Maine and New Hampshire coast reported no trace of two Portland brothers drifting in their 35-foot power boat since Wednesday. The brothers are Egan and Karl Matsen of Franklin st.

The cutters Mojave, Kickapoo and Tampa and the 125-foot patrol boat Dix and Faince continued the search of the sea kicked up by a cold north and northeast wind.

Searchers believe the power boat may have been capsized in the strong winds and the men have perished, unable to stand the bitter cold.

Particular attention was given the vicinity of Isle of Shoals. The sea was running in that direction from the time the youths put out for the fishing grounds 18 miles below Cape Elizabeth.

Woman Fined $25 for Ruining Piano

Found guilty of malicious damage to a piano which she wrecked with a piano stool, Mrs. James DeStephanie of Quincy today was fined $25 by Judge Avery of the district court.

The sentence was suspended until Jan. 25 to give the woman an opportunity to continue payments on the instrument. Testimony was given that she failed to keep up payments and ruined the instrument in retaliation. She must now keep the damaged piano and pay for it in full.

JUDGE COULD NOT SIT IF INTERESTED

The Ginsberg Measure Would Make Drastic Changes in State Court Procedure

Jury trial in certain contempt proceedings, and a new system of trial and appeal in others, is provided for in legislation filed with the General Court today by Representative Bernard Ginsberg of Dorchester.

His bill, a proposed amendment to the general laws, provides that in cases where the alleged contempt has in it the nature of personal criticism or attack upon a judge, such judge is automatically disqualified from trying the case.

The defendant shall be entitled to trial by jury only in cases where the alleged contempt also constitutes a crime, as in perjury.

In all other cases of alleged contempt, the amendment provides that the court shall issue an order of written notice giving the defendant opportunity to show cause in return of order why he should not be punished.

JUDGES DISQUALIFIED

If the court then holds the contempt not sufficiently purged by the defendant's explanation, it shall order a trial on a certain date, thus giving the defendant opportunity to prepare his defense.

Any judge having a particular interest in the proceeding is required to file notice to that effect or withdraw from the trial and if any part to a defendant in contempt files affidavit that the judge before whom the action is to be tried has a personal prejudice or bias, such judge must be replaced.

As in equity cases, appeal from the judge's decision and sentence is provided for in the preservation of evidence for review by the State Supreme Court, which may affirm, reverse, or modify the decree. Pending final disposition the accused shall be admitted to bail.

MAXIMUM SENTENCE

The maximum sentence upon conviction as set forth in the amendment, shall be six months' imprisonment or a fine of $1500. In the case of a fine, the money may be paid for the use of the state or to an injured party or for division among injured parties if there be more than one.

All proceedings for contempt must be instituted within a year of the act complained of, the legislation provides.

If any part of the proposed legislation shall be held unconstitutional, the validity of the remainder shall not be affected.

In preparation of the bill Representative Ginsberg spent several months in a study of United States Supreme Court decisions bearing upon contempt actions.

2 Dorchester Boys Held in Auto Thefts

Two Dorchester boys were arrested at the point of revolvers by Brockton police officers on the charge of stealing two automobiles, but only after one of the lads had given the officers a seven-mile chase from Brockton.

Charles Geswell, 16, of Florida st., and Kenneth Stolle, 17, of Theall, 16, of Center st., Dorchester, are the two young men arrested. Geswell stole the car owned by Herman Howell of 254 North Abington. Theall had stolen another car, the property of Frank Dillon, who was visiting the home of H. F. Galligan of Main st., Malden.

Patrolmen Casey and Getchell saw the boys leave the machines in the rear of a Brockton theater. They gave chase and after a two-mile chase arrested Geswell, but Theall, riding in another stolen machine, was not captured until he reached the Canton-Milton line, a distance of seven miles.

Unclaimed Customs Goods Sale Jan. 21

A sale of unclaimed goods, ranging from false teeth, to wine glasses and Paisley shawls to radio receivers, was announced today by customs officials to take place at the Appraisers' Stores, Atlantic ave., Tuesday, Jan. 21.

Calendars for 1928, a suit and overcoat with the combined value of $2, four boxes of coal and 10-pound tea samples are among other odd items listed.

TIGERS AND EAGLES MEET IN GARDEN

Boston College Trackmen Open Season at 'Y' Meet

FIRST TEST FOR EAGLE RUNNERS

BOSTON COLLEGE'S trackmen swing into action for the first time in 1930 at the annual open track and field meet conducted by the Boston Y. M. C. A. at the Huntington ave. gymnasium tonight.

The Eagles' foremost entry, Harry Downes, is not expected to run, although he sent his entry in the 40-yard sprint. Downes plays basketball for the B. C. All-Stars, who have a game scheduled with Bunker Hill tonight.

Downes decided to stay with the court five until after tonight's contest. He has only been on the track squad for a month. His progress has been sensational but he is still a novice and in need of more practice.

FOUR EAGLES IN DASH

He gained fame as a sophomore center on the football eleven and is due to go a long way matching the speed merchants in the dashes this winter.

Cheney, Sacco and O'Shea are other Boston College entries in the dash. None are expected to place, although Ryder is never surprised when one of his hard-working boys pull through in the medals.

Dan Larkin, in the 300, may romp to victory if he gets a start at the gun. Larkin is a football guard. If he can open a hole for himself on the narrow saucer of the Y gym as he did for the backs last season he may win.

DAILY ENTERED IN 1000

Tom Dailey is a veteran in the 1000-yd. run. He has been going in top form this season and should be up with the leaders. Ralph Ward, star miler of the frosh outfit a season ago, is running his first mile for the varsity. He wouldn't find any competition among opposing yearlings a year ago and looks more like another Leo Raymond each day.

Joe Merrick will start his first varsity race in the hurdles. Jim Combs, a freshman football giant, will try his hand at the shot-put.

These entries are all interested and Coach Jack Ryder may find out that he has the makings of some collegiate champions when the meet is concluded.

The real opening for the Boston College varsity will be staged next Saturday night at the Brooklyn College games in New York city. The Boston College mile varsity relay will race Holy Cross, Georgetown and New York University.

PAULINO BEATS VON PORAT

New York, Jan. 11—Paulino Uzcudun defeated Otto Von Porat winning the decision after one of the greatest uphill fights ever seen at the Garden.

For three rounds, Von Porat poured right hand punches into the Spaniard's head and body. Paulino's nose spouted crimson, his left eye turned red, and lumps stood out all over his countenance.

From the end of the third round on, however, Paulino won all that there was to the fight with the exception of the fourth, and though the Spaniard's margin in several other rounds was small, he kept out front.

During the first three rounds, Von Porat punished the Spaniard as few have done in long years of mauling.

After the battle, Von Porat said he quit punching in the fourth round on because of injuries of his hands. He had no excuses to offer, however.

Freddie Lenhart, heavyweight from Spokane Wash., opened his eastern campaign by knocking out Phil Mercurio of New York in the sixth round of the opening 10-round bout.

Marty Gallagher, youthful heavyweight from Washington, took revenge on Johnny Grosso for two past beatings by defeating the New York veteran in easy fashion in the 10-round semifinal.

Paul Blanchi, Argentine giant, won the decision over Mark Simons of New York in a four-rounder. Edgar Normand, Danish light heavyweight, defeated Eddie Huelsedus of Germany in a six-round preliminary.

Layton Retains Billiard Crown

New York, Jan. 11—Johnny Layton, of St. Louis retained his national three-cushion billiards championship by defeating Otto Reiselt of Philadelphia, 50 to 32, in the concluding match of the championship tournament.

FINLEY SAYS

"WOW" FINLEY

AL SPOHRER proved that he is a great catcher—but as a fighter he looked like a pretty poor bald-headed saxophone player—Art the Great Shires showed the boys a goodly left and a right that had plenty of kick back of it—Art started the American League off on another victorious year—and Spohrer looked much worse than the Cubs.

The Braves will not have to worry about their one backstop turning boxer—they may have to cure him of the shakes when he sees a first baseman's glove, though—The Great One is a good actor; his post-battle speech was a pip, "I didn't want to lick Al," he told the multitude, "I asked them for Hack Wilson"—And he was generous to his victim. "Al had no experience," he explained, "and you got to have some experience in this fight racket."

WE have an idea that Hack Wilson would think the Philly sun was shining in his eye if ever he stepped in the ring with articulate Art.

THE articulate one looks like a natural fighter. The way he can wade in is nobody's business. He's a rookie at the racket, but it will not take him long to develop into a pretty tough baby. He has all the makings, including the old confidence, most important of them all.

He isn't bashful about telling his plans, either.

"The White Sox must pay me $25,000 this season," he orated in his dressing room. "I've made half that in six weeks boxing, and what a sap I'd be to toss a cinch like that over.

"They'll march out to the ball parks to see me this summer because, you know, I'm a good ball player and the gang likes to ride me. Look at the way they turn out for these fights."

Art collected $2500 for his trouble—one month now. His say vivacity and knack of words have made him a headline rival for Ruth.

JUDGE LANDIS would better call of these baseball fights, or the Great One will kill some of his stars. He's rough and tough, and an apt pupil.

SPOHRER, in his first fight, was so dazed and unnerved by the crowds and the cheers and everything that he didn't know what it was all about—and after he collected the first crack on the chin he knew even less than that—"I did it for his wife and kiddies" proffered Shires, explaining why he didn't knock out Al after he had flattened him in the second—Nick Young, dramatic critic, who hasn't seen a fight since 1903, was one of the thousands of new ring fans that was Sam Carrick, who follows his baseball, no matter where—Judge Fuchs watched the scrap and decided that he hasn't a fighting ball club yet—Eddie Mack said good-by to the Garden in a real blaze of glory—it all proved that novelty helps any amusement enterprise.

THE Shires party intends to have three more fights before he thinks of baseball. He will let the White Sox do the worrying.

HACK WILSON could get a year's salary for a fight with the great Art in Chicago; but the Cubs will not let it go on—the White Sox could put on four-round bouts before each game and increase their gate receipts one hundred per cent.—the makeup of the Shires' entourage is worth the price of admission—recalls the old Dockstader minstrels—Johnny Buckley watched that right hand book with an interested eye—and Dan Carroll was fiddling with his fountain pen all night—wonder why the judges have to vote when a fighter is knocked as goofy as Spohrer was—Al naturally is quiet; he will have to keep that way until his lips shrivel back to normal.

JUST to show the interest in the batting ball player: three New York papers had representatives at the ringside.

POLISH STAR MAY RUN IN K. C. MEET

THE ban on Stanislaw Petkiewicz, Polish middle-distance runner, having been lifted by the executive committee of the Amateur Athletic Union, it is possible that Boston track followers will see him in the Prout memorial games at the Boston Garden.

The Pole said he would seek the government's permission to participate in the Prout Memorial games and the executive committee announced its willingness that Petkiewicz should run there. It declined, however, to sanction Petkiewicz' appearance in the Brooklyn evening high school and Pastime A. C. meets which he previously had entered.

Under terms of a decision handed down by the committee, the Pole will be free to compete in the New York A. C. games, February 17, the National A. A. U. championships at Atlantic City, March 8, and the Prout Memorial games, January 20.

The executive committee of the A. A. U. gave a hearing at which Petkiewicz and his interpreter, Felix Weinhal, were present. The committee announced later that it had granted the Polish conqueror of Rayo Nurmi permission to compete in the New York A. C. games, and the national indoor championships.

Some days ago the A. A. U. announced it had barred the Pole's competitive appearance in this country because of "suspicious circumstances" surrounding his visit. An invasion was begun into his exact amateur status and the conditions of his trip to the United States.

It was learned today that Petkiewicz, a native of Latvia, but a naturalized citizen of Poland for the past year and a half, is in this country as a diplomat courier of the Polish State department and that his expenses are borne by the Polish government.

The A. A. U. decided that while possibly there were matters in the Petkiewicz case which should be presented to the international amateur federation or the Olympic congress for their consideration, it felt there "is no reason at this time why permission should be withheld for him to compete in those meets in which his entering has not yet been stated as having been made or his appearance therein promised or promoted."

SQUASH TITLE FINAL TODAY

Miss Eleonora Sears and Miss Louise Waterman, first and second seeded players respectively, will meet in the final of the tournament for women players of the Harvard Club as a result of their victories over Mrs. Lothrop Withington and Mrs. Donald Holbrook.

Miss Sears defeated Mrs. Withington in three straight games, 15—4, 15—11, 15—10, in the first semi-final match, while Miss Waterman eliminated Mrs. Holbrook in four games, 16—17, 18—13, 15—4, 15—13, in the other.

Miss Sears was too steady for Mrs. Withington. She made few errors and always held command of the situation. At times Mrs. Withington made some remarkable recoveries, but the crafty placements of her more experienced rival kept her running continually.

Except for the third game, when Miss Waterman uncocked a series of splendid shots to win 10 points in a row, the second match was evenly contested. The first game was a nip and tuck battle all the way. At 14-all, it was set at three and Mrs. Holbrook won the deciding point with a side wall placement.

The second game was unusual. With the first 10 points evenly divided, Miss Waterman spurted to a 18—17 lead. Mrs. Holbrook then made a splendid recovery and won six straight points to tie the game 18-all. Her effort was unrewarded, however, when Miss Waterman, playing unusually well, ran out the game with five straight placements.

A run of 10 straight points gave Miss Waterman the fourth game without much trouble, but after a short rest Mrs. Holbrook recovered her earlier form and the fourth game was a battle all the way. With a chance to tie the score at 14-all, she missed the ball as it caromed off the left side wall to give the game and match to Miss Waterman.

GILMORE NEW TERRIER COACH

Joseph Y. Gilmore, former English high school star and a member of the Philadelphia Athletics in 1919 and 1920, was appointed coach of the Boston University baseball team for one year. He succeeds Dave Morey, who is now coach of all sports at Bates College.

He was among the 15 applicants who applied for the position and was recommended by Athletic Director George V. Brown. Gilmore is at present trainer for the B. U. hockey team and also of the Boston Tigers. He will take up his duties immediately.

For the past two years Gilmore has managed the House of David baseball team. He captained the championship Glace Bay team of the Cape Breton League in 1923. Since then he has been with the Worcester and Lowell teams in the New England League, playing shortstop.

MALCEWICZ TO MEET STECHER

Paul Bowser will stage his next show one week from Thursday night in the Arena, when he will present two of the leading contenders for Gus Sonnenberg's heavyweight wrestling title—Pancher Joe Malcewicz and Joe Stecher—in a finish match at the Arena.

He believes that Malcewicz and Stecher, each of whom is fighting for a shot at Gus, will provide a battle which will equal the previous matches.

Crimson Nine to Play Texas U.

Harvard's baseball nine will meet University of Texas at Soldiers Field the coming season, it was announced today at Cambridge.

This is the second meeting arranged between the two universities. In 1931 the Cantabs will have the Long Horns as opponents on the gridiron.

The date of the diamond tilt between Harvard and Texas has not been definitely settled, but is expected to be held the week of June 8.

This game will be one of the "comeliness" tilts which Harvard intends to try next season. Directing of the team will be done by Capt. Frank Nugent, while Varsity Coach Fred Mitchell will be in the grandstands.

Track Expensive

Track is an expensive sport and the returns are small. At Penn State one year's track activities showed a loss of $10,385.

Yachtsmen Busy on 1930 Schedules

By GEORGE W. GRIMM

THOSE few warm days this week proved a boon to many local yachtsmen.

There were many who visited their ships and got in a little work on their winter-stored craft that hours in the balmier days when work is being pushed to get the old boat into shape for the water.

Geo. Grimm

Meanwhile, elections continue to be held by various clubs, the latest precincts to be heard from being the South Boston Yacht Club, the Columbia Yacht Club and the Dorchester Yacht Club.

John A. Stone has been re-elected commodore of the Columbia organization, with George W. Wilson as vice-commodore, Dr. Julian Doherty as rear-commodore, Theodore H. Campbell as secretary, Fred C. Mackintosh as treasurer, and Joseph F. Fitzgerald and John J. Kenney as trustees.

Returns from the South Boston Yacht Club give Thomas J. Scannell as commodore, C. Fred Sterling as vice-commodore, M. J. McDonall as rear-commodore, P. J. Manning as secretary, Frank A. Hurley treasurer, C. W. Mehegan and Stillman Tuckerman trustees and H. F. Donovan and Arthur E. McGarray on the regatta committee.

DORCHESTER OFFICERS

Elected by the Dorchester Yacht Club for 1930 offices are the following members: Frank C. Fais commodore; Archie B. Hayes, vice-commodore; Benjamin Carlstadt, rear-commodore; Joseph A. Brickell, secretary; LeRoy C. Prull, treasurer, and J. J. McDougall, Harry Holmes and William E. Minard, trustees.

While yacht clubs generally are arranging their 1930 schedules and filling every possible date, chief interest at present centers on the attempt Sir Thomas Lipton will make to lift the America Cup.

This will be the fifth attempt of the tea man to achieve his ambition and his five-leafed Shamrock will be groomed and trimmed to the utmost.

The race has been moved from the original course off Sandy Hook into society's ocean front yard off Newport. It is understood, however, that Marblehead nearly succeeded in obtaining the observation race of the four cup defenders.

The syndicate members, as well as the managers and skippers of all four of the sloops fully approved of the proposed series off Marblehead but the chairman of the New York Yacht Club's committee held firm for the races at Newport.

WORK ON CUP DEFENDER

Only a week ago the keel of the cup defender Westamoe was cast at Herreshoff's yard in Bristol and the big piece of lead is practically all smoothed off. It soon will be moved to the ways and the frames set up.

In the same shop, the Enterprise is all framed out and more than one-third plated.

It is said that the name of the cup yacht for the Thorne syndicate now in process of building at Lawley's, from designs by Francis Herreshoff, will be the Whirlwind.

While on the subject of building, a new firm of boat builders is under way in Neponset carrying the name Rice Bros. George L. Rice, formerly with Lawley's, is manager.

According to the announcement, production will be centered upon high class tenders at present, with expectation of adding a line of one-design runabouts, perhaps this year.

The 1930 building year will be of substantial proportions inasmuch as nearly all designers are reporting fair activity for this date. They expect the rush to come in early spring.

And here is a program already outlined. The Massachusetts Bay Yacht Clubs Association has set Sunday, July 27, as the date for its annual outing in Boston Harbor.

The association's annual meeting, incidentally, will be held Jan. 24 at the Rowes Wharf station of the Boston Yacht Club.

B. C. Ball Squad to Travel South

Boston College's baseball team will make its usual Southern trip this spring during the Easter vacation. Five games below the Mason-Dixon line have been arranged in the schedule, which be announced soon.

Holy Cross, for the first time in many years, cancelled its Southern trip, and Georgetown, the Jesuit institution in Washington, has dropped baseball from its list of sports.

Coach Hugh Duffy of the Eagle diamond men is making his plans now and expects to get started early in March with practice sessions daily at the Commonwealth Armory.

Quite a Record

Between 1921 and 1927 the Baltimore Orioles won 20 or more games per season from eight opponents out of 24 played.

60 MATMEN IN TITLE BOUTS

The fourth annual N. E. A. A. A. U. amateur wrestling meet for New England titles will be held tonight at the Cambridge Y. M. C. A. under the auspices of the A. A. A. U. committee on wrestling.

Sixty grapplers have sent in their entries and it is expected that 40 bouts will be contested during the evening. The first match is scheduled to go on the mat at 7 p. m.

Noponent of the Boston Y. M. C. A. team, New England 115-pound champion, is the favorite in this event. Bob Oxford of M. I. T., Rockstrom, also of Boston, and Joe Santalli of Newton Y. are some other strong men in this class. In the 125-pound class DeMayo, Providence Y; Gamel, Boston Y; Bazarian, Newton Y, and Rano of Worcester Boys' Club will battle for premier honors.

ROUTIS MAY LOSE SIGHT

Bordeaux, Jan. 11—Andre Routis, former world featherweight boxing champion, will undergo a delicate operation on the eyes today in an attempt to save his sight.

Blows received on the head in the course of the French fighter's 287 ring battles are said to be responsible for his condition. Routis retired from the ring after losing the title last fall to Bat Battalino in Hartford, Ct.

Horsemen Meet Feb. 5

Worcester, Jan. 11 (AP)—The annual New England Horsemen's Day, held under the auspices of the Bay State circuit, will be held in Worcester February 5, when horsemen from all over New England will gather here.

UNLESS he decides to make an eleventh-hour change, Manager Eddie Powers will start Sonny Manning on right wing tonight in place of Yank Boyd, when the Tigers meet the New Haven Eagles at the Garden.

Fresh from the amateur ranks, Boyd got off to a flying start with the Tigers, rifling home 11 goals before the season was hardly underway. Naturally, it was impossible for him to hold such a pace, and now that he has not been meeting with the success of the early games, the Toronto boy is beginning to lose confidence.

Bill Grimes

Boyd has not been getting the breaks and neither have the Tigers. So Manager Eddie Powers opines that a slight temporary shakeup may produce a home victory for his charges, a feat which they have not performed since the first fortnight of the season.

PLAYS WELL AGAINST EAGLES

Probably Manager Powers was in a measure prompted to start Manning because of the brand of hockey the Coldwater boy has always played against the burly New Haven outfit.

Manning has never been able to develop any noticeable enthusiasm in a game other than those featured by heavy checking and rough going. If the boys are stepping into each other this evening at the Garden and there is every reason for believing that they will be, Manning will be right at home. He may be directly or indirectly responsible for putting some much needed punch into the Tigers.

The Tigers are tied for third place with the Philadelphia Arrows, trailing New Haven by a point. A victory tonight would move the locals up to a second place deadlock.

The Can-Am champions have rested since Wednesday night, when they went down to defeat before the Arrows in Philly. Having faltered in the last three seconds of the Rhode Island Red game last night, they made a wonderful opportunity to break the undefeated streak of Sprague Cleghorn's tribe, and then stumbled again late in the third period in Philly, Manager Powers ordered a complete rest.

WAITE TO START

Capt. Deacon Waite and Johnny Loucks will start on the front line with Sonny Manning, with Reg Mackey and Eddie Oatman on the other defense and Herb Rheaume in the nets. Boyd will work with two other citizens of Toronto, Eddie Burke and Clark Heyd, while Reg Mills and Dutch Osborne will also see service on the forward line.

Ponzi Contant, who has been featuring in every game since he returned after recovering from a dislocated shoulder, will spare on the defense as will Bill Regan, one of the most sought after defense men in the Can-Am League.

Manager Jimmie O'Connell will open with Clukker Whyte, Billy Boucher and Eddie Bouchard on the forward line, while Himes and Speyer protecting Jakey Forbes, who has retained his form by from New Haven to the New York jumping up and down this week Americans.

Babe Dye, Hughes and Chouinard will be New Haven's second line and Normie Shay, former manager of the Arrows, will relieve Speyer and Himes on the defense.

Belanger Stops Cline in Fifth

Winnipeg, Man., Jan. 11 (AP)—On the offensive from the first click of the gong, Charley Belanger, Canadian light-heavyweight champion and aspirant for the world title, knocked out Battling Tiger Johnny Cline of San Francisco in the fifth round of a bout here last night.

It was the first knockout suffered by the Coast battler in 240 bouts.

Schaaf Beats Friedman; Now Ready for Paulino

EVENING AMERICAN SPORTS

SPOHRER IS STOPPED BY SHIRES

By JACK CONWAY

EDDIE SCHAAF is today ready to sign to battle Paulino as a result of his smashing victory over Al Friedman in their 10-round bout at the Boston Garden.

Eighteen thousand persons paid $32,700 to see the show. The Shires-Spohrer clash helped to swell the crowd.

Jack Conway

Schaaf turned in the best bout of his career in winning over the aggressive Friedman. The decision didn't meet with the approval of many of the fans. This was due to Friedman's great popularity. It was a Friedman crowd. Al's willingness to battle all comers and his carnestness when in action gave won for him a large following.

The Roslindale warrior also kept relatively away even when it looked a though Schaaf had the fight well in hand. In the eighth round, in particular, Friedman made a brilliant rally and brought the fans to their feet as he volleyed with left and right hand punches to his opponent's head.

Schaaf had a weight advantage of 14 pounds. He scaled 200 pounds against 186 for Friedman.

Ernie was in the best condition of his career. He looked as strong as the proverbial bull and got plenty of power behind his blows.

Schaaf's left hook to the body as his best sock. At times he rifled his left hand to the head.

FRIEDMAN stood up well under the heavy bombardment of blows during the first seven rounds it always kept coming in no matter how hard and often he was hit. Meanwhile he kept punching away with both hands.

Friedman came out of his corner fighting in the eighth round. He drive left and right hand punches to the head. Schaaf fought back hard, but Friedman would not be denied. He kept barraging with both hands for the head and had the margin for the frame.

The ninth round was even, while Schaaf had the edge in the 10th frame.

ARTHUR (THE GREAT) SHIRES, White Sox first baseman, won from Al Spohrer, Braves' catcher, in 10 rounds. Referee Joe O'Connor used good judgment when he stopped the contest with Spohrer helpless on the ropes.

As fighters Shires and Spohrer are a couple of good ball players. Rocky Stone at his worst would have belted both of these carefree warriors out of the picture on the same evening.

As a comedy affair the bout was a huge success. The crowd didn't expect to see any real fighting and got its amusement watching the feeble efforts of the ball tossers to hurl knockout punches.

Shires had things all his own way from the start. He was too rough for Spohrer, who couldn't stand up under heavy punishment.

They have taught Shires how to jab with his left, while he has plenty of power behind his right when it lands.

SHIRES dropped Spohrer for a count of nine in the second frame. He had him groggy from the effects of a right hand sock to the whiskers. The fourth frame when Referee Joe O'Connor performed his act of mercy.

Arthur the great favored the crowd with a short speech after the mill. Said the Great One, "I didn't want Al Spohrer. I want Hack Wilson."

At that I'd be willing to pick Shires to lick any of the ball players on what he showed last night.

TOMMY RAWSON, JR., of East Boston outpointed Johnny Gonzales of this city in six heats. Tom McNeeley of Cambridge was awarded the decision over Italian Jack Herman of New York in six rounds.

Joe Venuti of this city outscored Johnny Walker, another home town product, in four heats, while Laddie Lee of Cambridge was declared the winner over Tom Quigley of Cambridge at the end of four frames.

Joe Gorman of South [redacted] stopped Tex Hamer of Philadelphia in two sessions, while Henry DeJulio of Philadelphia out-galloped Big Boy Burlap of Rhode Island in four sessions.

Big Boy Peterson to Meet Carnera

New York, Jan. 11—The New York boxing commission approved a 15-round light heavyweight title match between Lou Scozza and Jimmy Slattery, both of Buffalo, in their home town Feb. 10. The bout is the final elimination contest suggested by the commission as a means of securing a successor to Tommy Loughran.

HELEN OPPOSED TO ONE SERVE

New York, Jan. 11 (AP)—Mrs. Helen Wills Moody votes an emphatic "no" on the proposal that tennis player be limited to one serve instead of the customary two.

"Everybody would have a 'pop serve,'" declared the hard-hitting woman champion of the world in response to a nation-wide survey of player opinion conducted by the magazine Tennis.

"Why change firmly established points of the game?" asked Queen Helen in taking the negative on another suggestion—that of playing over all net cord shots occurring during rallies. "Tennis should have all the tradition it can have.

"Net cord balls add to the fun of playing—the chance shot is the amusing one."

A majority of the country's players agreed that neither change is desirable.

Rain Halts Fight

Miami Beach, Fla., Jan. 11 (AP)—Rain last night caused the postponement of the ten-round nontitle fight between Lightweight Champion Sammy Mandell and Young Quintero of Cuba here until January 15.

Passing the Puck

By BILL GRIMES

DONALD SANDS, the veteran official, has arranged for hockey referees to meet at the YD Club, on Huntington ave. tomorrow afternoon at 3 o'clock. Invitations have been sent to all officials listed in this district but everyone interested is welcome to be present.

This meeting is the first step towards the formation of an association for hockey officials who handle school, college and club games. And also it is an initial movement towards the establishment of a uniform code under which the officials will interpret the rules.

According to Don Sands, the new organization will be conducted along the same lines as the football associations. There will be meetings called at regular intervals and the rules discussed at length. A committee will be appointed to issue approved rulings, which will be incorporated into next year's amateur rule books.

A. Ralph Winsor, former Harvard coach and the best authority on amateur hockey in this country or Canada, will be the guest speaker at tomorrow's meeting. Winsor has been actively connected with college and club hockey for more than 30 years and he is accurately posted on every angle of the rules and the game.

The organizing of hockey officials' associations is of vital importance to the game and Sands is to be congratulated for his progressive step. And, his example for a tilt with the New Haven could well be followed by those interested in professional hockey.

Until such a time as there is a uniform interpretation of hockey rules, the officials, players and coaches will always be working at cross purposes.

True to his word Pres. James E. Dooley of the Can-Am League, assigned Bill Shaver to handle a Reds' game in Providence. Shaver is one of the best referees in the country, in spite of the fact that he has never received a National Hockey League assignment. He is absolutely fair and equally fearless. The Providence fans gave Shaver a "Bronx" cheer when he appeared on the ice but the boy from the Pacific Coast turned in his usual fine job.

B. U. QUINTET PLAYS H. C. TONIGHT

Boston University's basketball five, fresh from a victory over Worcester Tech, its first win of the season, will meet the strong Holy Cross five on the latter's court tonight.

Coach Win Karlson of the Terriers will rely on the same lineup that started the last contest, namely, Berry and Nims, forwards; Miller, center; Perkins and Keyo, guards.

Three of these boys started their first game against Worcester Tech and a fourth was shifted in his position. Cy Perkins, Moose Miller, and Flash Keyo are the trio who got their chance in the first game of the week and played so well that they are now established regulars. Bob Berry who was moved up to forward from a guard berth proved the wisdom of this move by scoring 23 points single handed which was almost equal to the total score of the opponents. He will be the big gun in the Terrier attack against the Crusaders and may have an important bearing on the outcome.

Bernie Nims, a veteran of three court campaigns on B. U. hoop teams, is the only man in the lineup that started the season in one position and survived the many changes effected in the lineup. Nims will hold forth at right forward where he can be expected to play his usual brilliant game.

The combination of Berry and Nims at the forward berths is hard to beat and now that the boys are certain to play side by side for the remainder of the season they will display plenty of classy basketball for the rest of the winter.

MONTE IN CLASH WITH ALLEN

Joe Monte and Harry Allen, bitter Brockton rivals, will battle it out once more in the Arena next Thursday night at the top of an all-action card of bouts.

The Arena A. C. established itself during 1929 as a home of action, and its first show in 1930, at the popular price of $1, $1.50 and $2, promises to inaugurate the new year in an auspicious manner.

Tony Shucco, brilliant North End middleweight, who has lost but one bout in his career, will return to a local ring in the eight-round semi-final bout, meeting Bob Jasse of Revere. Shucco's only set back was at the hands of the clever Johnny Indrisano, and only by a slim margin did he lose. He is hot on the heels of Al Mello and the New England middleweight title, and if he succeeds in sweeping past Jasse, he intends to press his claim for a bout with Mello.

English Izzy Hyams, Jewish welterweight star from the British Isles, will make his local debut in a six-rounder against clever Jimmy McGonnigle of Weymouth, and in another six-rounder the hard-hitting Laddie Lee of Somerville will tackle Mickey Sears of East Boston.

In the four-rounders Joe O'Donnell of Roxbury will meet Leslie Baker of Watertown in a battle between two classy rivals; Alex Russo, Watertown heavyweight, will match punches with Pat Perkins of South Boston, and Charlie Longo of the North End will face Sammy Mango of Dorchester. Another four-rounder will complete the card.

Shires-Trafton Bout in Making

Chicago, Jan. 11 (AP)—Charles Arthur Shires may or may not have retired from the prize ring business, after polishing off Al Spohrer in Boston last night, but Promoter Jim McMillin today expressed the hope that he might induce the babbling ball player pugilist to engage in one more bout.

Mullen wants Shires to meet George Trafton, his conqueror, in a return engagement. The big professional football player is willing and Shires had expressed a desire for revenge on the decision victory scored by Trafton.

Jones-Hybert Go Is Postponed

Holyoke, Jan. 11 (AP)—The 10-round bout between Gorilla Jones of Akron, O., and Floyd Hybert of Paterson, N. J., scheduled Monday night at the Valley Arena, has been postponed until Friday. Jones' manager reported to Promoter Homer C. Rainbault that his boxer was suffering ptomaine poisoning last week and would be unable to go through with the bout on the scheduled date. The remainder of the card will remain the same.

Boston Hockey Club Plays Yale Jan. 15

The Boston Hockey Club, composed of former amateur club and college players of Greater Boston, is tested next Wednesday night when it meets the fast Yale sextet in New Haven.

Jamaica Plain Downs English Six at Arena

JOE LYNCH, Jamaica Plain ice flash, was the hero of his team's victory over English high at the Arena this morning. The stocky left wing of the J. P. sextet scored the goal which left the final count Jamaica Plain 1, English 0.

The opening clash of the day, between Roxbury Memorial and South Boston was close, and neither team was able to score.

Trade school edged out Charlestown, 1 to 0. Mechanic Arts and Latin were in a scoreless tie after their two periods of hard fighting.

Dorchester had a tough foe in B. C. high, but finally managed to get the verdict over the private school team, 1 to 0.

Commerce won over Hyde Park, 2 to 1, and in the final fray of the morning Brighton beat East Boston, 2 to 1.

All the boys were in fine shape and played fast hockey. One 15 and one 14-minute period was played. This allowed the referees to run the games off so that the final clash ended just at noon.

DUIMET PLACED ON CUP TEAM

New York, Jan. 11 (AP)—The American Wightman Cup team for 1930 was announced today as follows: Bobby Jones, Atlanta, captain; Harrison R. Johnston, St. Paul; George Von Elm, Detroit; Francis Ouimet, Boston; George Voigt, New York; Dr. O. F. Willing, Portland, Ore.; Jess W. Sweetser, New York, and Donal K. Moe, Portland, Ore.

Roland MacKenzie, Washington and Maurice McCarthy, Jr., New York, were named alternates.

The team will sail some time in April to meet a British team in defence of the trophy which was won by the Americans in 1928 at Chicago.

Five of the eight regulars were members of the victorious 1928 team. Dr. Willing also is a veteran of Walker Cup competition, but Voigt and Moe have been selected to play for the first time MacKenzie was a regular on the last team and McCarthy was an alternate.

Lew Fonseca on Road to Recovery

Pittsfield Club Gets N. E. Swim Contests

Pittsfield, Jan. 10 (AP)—The Pittsfield Boys' Club has been awarded the New England men's and women's swimming championships at 220 yards, it was announced tonight. Both events will take place on Saturday, April 5.

Miss Albina Osipowich, champion, is expected to defend her laurels here, while her brother, John, will be here also to defend his 220-yard free style title. Miss Joan McSheehy, like the Osipowichs from Worcester, will compete. She is the national back stroke record-holder.

Leading Bowlers in New York Tilt

New York, Jan. 11 (AP)—An all-star bowling tournament, with four of the country's leading players entered, begins here today. Jimmy Smith of Chicago was matched with Joe Falcaro of New York, world's match game champion, in the first contest late this afternoon.

Two matches on the night schedule, Charlie Daw, Milwaukee, bowling William (Dutch) Cliffe of Utica, N. Y., and Daw meeting Falcaro later in the evening.

The Sunday matches have been lined up as follows: Falcaro vs. Cliffe, Smith vs. Daw.

Hard Schedule for Amherst Tennis Team

Amherst, Jan. 10 (AP)—The heaviest opposition in years is called for on the Amherst College tennis schedule, announced tonight. The first match comes April 19 with Harvard, and the slate includes matches with Army, Yale and Dartmouth.

The schedule: April 19, Harvard at Cambridge; 23, Springfield; 26, Massachusetts Tech; 30, West Point at West Point; May 1, Union at Schenectady; 7, Yale at New Haven; 10, Brown; 17, Wesleyan; 24, Dartmouth; 30, Williams at Williamstown.

HARD BOUT AHEAD FOR MALONEY

ARMAND EMANUEL, 22-year-old Pacific coast barrister, returns to the Hub to clash with "Dynamite Jim" Maloney of South Boston in the next fistic feature to be staged at the Boston Garden next Friday night.

Once before these rivals were hooked up for a match. It was to have taken place in New York, but at the 11th hour an injury prevented Emanuel from going through with it.

Since then the far western youth has piled up a long string of victories and in his lone appearance in the Hub, he scored an easy win over Jack Gagon.

Emanuel always has been compared in the ring to Tommy Loughran, light heavyweight champion and these rivals have participated in two bitter ring battles. In fact only fate robbed Emanuel of the crown in both of these encounters as ringsiders always insisted that the Pacific Coast boy should have received the decision.

With Maloney facing a number of important bouts in the near future, the South Boston man is staking his entire future by meeting an opponent of Emanuel's caliber at this time.

Maloney has seldom succeeded against an opponent with a good left hand and for this reason, it is expected that Emanuel will prove one of the most formidable opponents he has met during the past year.

The Garden is planning to support this heavyweight go with one of the best preliminary cards of the season.

Jack Delaney to Try Comeback

Jack Delaney, former light-heavyweight of the world, has been signed to appear in Providence on the 24th of this month. He will receive the largest guarantee that has ever been paid a fighter in a Rhode Island ring. His opponent has not been selected, but an attempt is being made to obtain Tom Kirby, the Roxbury Adonis, to meet Delaney.

Dr. Bisch's Daily Health Hint

ALL persons using a swimming pool should feel it their bounden duty to keep it as clean as possible. A pool can become a source of contamination if carelessness in cleanliness is practiced. Water should be changed frequently. There should be a constant flow in the pool.

This Day in Our History

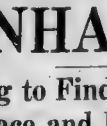
'UNHAPPY,' BUT SHE SAYS SHE'S MADLY IN LOVE

Trying to Find the Road to Peace and Happiness

By BEATRICE FAIRFAX
An Authority on the Problems of Love and Marriage

"UNHAPPY" writes that she is madly in love. And she is trying very hard—but unsuccessfully—to find the road to happiness. "Mad love" is not usually the way that leads to peace and joy. "Dear Miss Fairfax," the happy writes, "Please don't put my letter aside, as I am so very unhappy. Life really isn't worth living.



Beatrice Fairfax

"My mother is dead and I have been coming here and there for the last five years. I am madly in love with a fellow five years my senior.

"I went with him three months steadily and I was the happiest girl in the world and I know he cared for me, when a pretty blonde came along and I was cast aside. I don't blame him for falling for a pretty and popular blonde, but she was no good and she was finally cast aside too—he says no hater her now.

"I am considered nice-looking and neat with my clothes. I am 23 and five feet six. If only I was smaller and prettier, I know I could win him! No fellow wants a tall girl unless she is real pretty.

"I have called him a couple of times as I heard he wanted to call me, but was afraid. He called a few times later and I was out with him last Saturday and he promised to call this week, but hasn't

"I am afraid he was disappointed in me. I just can't fall all over a fellow, although I treated him nicely. I just can't forget him, as much as I try. I cry myself to sleep nights thinking of him. If I could only die, I would be so much happier! Some girls have nice home folks and some one to love them. Now why can't I?

"I go to dances and try to meet some one, but the fellows are too fussy and want a beauty! Don't tell me he isn't worth thinking about, for he is, and was always wonderful to me. Won't you please answer my letter? I thank you for your kindness.

"UNHAPPY."

I will gladly answer your letter, Unhappy, and do what I can to help you solve your problem. I am sorry, dear, that your mother is dead—there is no one quite as comforting as one's mother to talk things over with.

What you need most of all, Unhappy, is a little patience. Your friend shows his interest in you. Less than a week ago he was out with you. Before this letter reaches your attention, he will probably have called you up again.

Don't worry yourself sick over pleasing him. Just be yourself—your daintiest, most charming self. Posing or acting is silly—you could not keep it up long, could you? If he likes you it is for that self of yours, for your own individuality and crying yourself to sleep won't help any more than straining your nerves to please him will.

Thoroughly enjoy his companionship when you are with him, but enjoy also, all your congenial, worthwhile friends, and in the midst of your good times don't forget that a girl can be good company, jolly, friendly, sympathetic, yet not for one moment forget her own self-respect and dignity—and every man worth having for a friend likes her better for being able to say "No" on occasions, and to say it firmly and goodhumoredly.

I would tell if I were you, call up that young man, who is, you insist, so well worth thinking about! See what he wants to see you, he will overcome his bashfulness and call you up. Then you will have the satisfaction of knowing he wishes to be with you when you and he are together and he will never be able, in thought or word, to accuse you of pursuing him.

As to your tallness, my dear, make it an asset to your charm. And one word to comfort. The fashionable longer waist are most becoming to tall girls. Carry yourself regally and keep healthfully slender, then you can look graceful as a lily and wonderfully feminine and appealing in long frocks, even though you are tall and believe you are not pretty. The best beauty—the kind men admire most—is the radiance of a friendly, beautiful spirit shining through the eyes.

So don't be discouraged, dear Unhappy, and don't mourn many a girl who cried herself to sleep over a love affair just as foolishly and needlessly as you do some nights, then a year or so later found herself a radiantly happy young married woman, more in love than in every case married to the man who caused the tears.

Life is a beautiful adventure. Take it with gaiety and sweetness and good sportsmanship. Prepare yourself to be worthy of and ready for the finest, truest romance, then one day before you realize it the princess you feel you are now, and still better friend, will discover that you—and only you—are the girl who can bless his life and make him happy as his sweetheart, fiancee and bride.

Tom Regrets Lack of Flowers in Home

"It looks awfully bare, doesn't it?" he said. "My idea of heaven," declared Lovejoy.

Lovejoy -:- Serial by Beatrice Burton

Continued from Page 1, 2nd Sec.

her fingers through his hair, rumpling

His arms went around her as they had gone around her that afternoon . . . as if they were going to hold her close to him forever.

* * *

That was the third Saturday in November.

Before another month had rolled by, Lovejoy was beginning to feel that she was quite a housekeeper.

Aunt Em had taught her how to broil steaks and make coffee.

She had taught her how to prepare a grape-fruit for Tom's breakfast and a bowl of salad for his dinner.

She had gone to market with her and showed her how to pick out the good cheap cuts of meat, the freshest of vegetables and fruits.

She had shown her how to dust a room and make a bed so that it wouldn't pull out at the foot.

But none of these things came easily to Lovejoy. She was anything but a born housewife. She didn't even like housework.

The only things along that line that she liked to do were the little fussy things that beautified the flat.

She loved to buy a bunch of holly or fresh flowers in the market and bring them home to arrange in a glass bowl.

She loved to see the cigarette boxes in the living-room filled with cigarettes, and she bought colored matches in silk-covered boxes for the smoking table.

She bought floating English bath soap that she couldn't afford, when plain, white soap would have done just as well at half the price.

Two days before Christmas a wedding present arrived from Steve Oglebay.

It was a pair of lamps. Beautiful little things they were, with sterling silver bases and shades of thick ivory-colored silk.

"Nice of him to send them, wasn't it?" Tom asked amiably that night when he came home from work and saw them.

For two years he had been jealous of Steve Oglebay, the only man beside himself who wanted Lovejoy to marry him.

But there wasn't a trace of jealously in his face or in his voice now. . . . Why should there not? Lovejoy was his now, and he was the only man in her life. That was his attitude.

He set the lamps down upon the table, when he had looked them over, and took his wife in his arms.

"Nice sort of fellow, Steve Oglebay," he remarked cheerfully. "I don't know why you didn't pick him instead of me."

Lovejoy smiled at him and lifted her face for his kiss. Her arms went around his shoulders, and her hands pulled his head down to hers.

"I wouldn't care if I never saw Steve Oglebay again," she said, and there was a throb of tenderness in her voice. "There never was anybody for me but you, Tom, and there never will be."

They were wonderfully happy in those first unreal delirious days of their life together.

* * *

And then, on the day before Christmas, Steve Oglebay came into Lovejoy's life once more

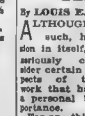
Aiding Others Makes Us Happier

By LOUIS E. BISCH, M. D., Ph.D.

ALTHOUGH social service, as such, has become a profession in itself, every person should seriously consider certain aspects of this work that have a personal importance.



Dr. L. E. Bisch

For one thing, it is a mistake to believe that standing on one primary duty of caring for our immediate families as best we can is sufficient. Undoubtedly it gives the greatest satisfaction, but that alone can make us narrow and selfish and no one who is narrow and selfish gets the most or the best out of life!

Only by helping and taking an interest in our fellow men do we round out our lives and make them full and rich. You cannot be a law unto yourself or even unto your own family. What affects others directly or indirectly affects you.

The conditions existing in your community reflect you, as a member of that community!

If they are bad, your sons and daughters inevitably become more or less contaminated by them. If they are good, your children, in turn, benefit.

The three great forces that influence individuals the most are work, recreation and living conditions.

Here are fields you can interest yourself in. Here are opportunities of a varied kind that can give that emotional outlet you need.

Put aside your intimate duties, your personal prejudices and go out and help somebody else!

It's a delightful feeling of satisfaction to know you have been instrumental, even in part, in righting a wrong, or correcting some flagrant nuisance, or of lending a helping hand to some human being.

By contrast you enjoy more the advantages you already have. Or, by finding someone afflicted as you yourself are, you realize with gratification that you are not exceptional.

There are many ways of performing a little social service. Nor is it always among the poor that good deeds can be done.

Many so-called "white-collar" workers would be grateful for advice based upon experience or scientific knowledge which will help them to see through their problems and point a way out of the mental morass in which so often they find themselves entangled.

Witness the popularity of the Y. M. C. A. type of work. It appeals to rich and poor alike. It is social service on a large, systematic and non-embarrassing plan.

A banker, for instance, would be a valuable adviser to those who are in financial trouble.

A business executive could help many who have not yet found themselves.

Older women, who have grown children of their own, could impart just the information that many young women so sorely need.

But, whatever you are, whatever your particular job or lot in life may be, there is some direct, individual and stimulating social service work for you to do if you but seek it out.

You will find it pays rich dividends in personal satisfaction.

Roast Goose for Sunday

IF you didn't have goose for either Thanksgiving or Christmas, don't let the winter go by without enjoying one good old-fashioned Roast Goose for a treat. Geese are reasonable right now and when properly prepared are mighty good eating. With the goose serve cranberry sauce, baked potatoes, mashed yellow turnip, fried apples and fruit salad, your favorite dessert and one of the lighter varieties and coffee. Here are the directions for the goose roasting and salad making:

Martha Lee

ROAST GOOSE

Select a plump goose; draw, wash clean and singe. Place 1 unpeeled, gashed orange and 1 unpeeled cored apple in cavity. Tie string firmly around and fasten legs securely. Place in hot oven (300 degrees) for 30 minutes. Then remove from oven, take out fruit and pour off excess fat. When cool, fill with stuffing and sew skin together. Dredge with ½ cup flour to which 1 teaspoon salt has been added. Place in hot oven (450 degrees) for ½ hour until flour is browned; then reduce heat to slow oven (300 degrees) and finish baking, allowing 20 minutes to each pound. Baste with hot water during last ½ hour of roasting.

STUFFING FOR 8-LB. FOWL

2 cups chopped stoned prunes
2 cups finely chopped apples
3 cups stale bread crumbs
1-3 teaspoon salt
1-4 cup cold water

GRAPEFRUIT SALAD

1 grapefruit
3 apples
Lettuce
French Dressing

Pare grapefruit and divide into sections. Slice unpared apples. Arrange grapefruit and apples alternately on lettuce leaf and serve with French dressing.

Faithfully yours,
MARTHA LEE.

Etiquette in the Elevator

By MRS. BEECKMAN

DEAR MRS. BEECKMAN:

Will you please tell me if a lady, when entering an elevator, should acknowledge the respect shown her by a gentleman who removes his hat when she enters?

ANXIOUS.

THIS question interests me very much, for it shows in you a particularly gracious attitude toward manners. But, as a matter of fact, we don't make special acknowledgement of this evidence of good manners on the part of a gentleman, for we would, in this case, take for granted his evidence of respect.

DEAR MRS. BEECKMAN:

1. Would it be unconventional to give a small birthday present to a young man whom I have known very well for some considerable time? I would not want to convey to him anything more than a friendly feeling. If so, what would make an appropriate gift? He is a very nice young man and has remembered me on different occasions and I would like to make some return.

Enquirer.

2. It would be very gracious for you to send such a gift, and it will be correct to send it, provided you choose a gift that is thoroughly appropriate. A book, would, in this case, be above criticism gift. Books, in these days, is an easy task to choose "The perfect book" for a man, what with all the excellent and thrilling biographies, books on travel, collections of essays on absorbing subjects, and books on every subject that he may be especially enthusiastic about.

Measure Man by Character

By LUCY LOWELL.

THE ground work on which all character is built is the Golden Rule.

"Do unto others as you would they should do unto you." There is no going beyond this—no going higher. The man or woman who honestly strives to work out life from this standpoint will have few shortcomings of character; they will have very little to think of with regret when—as we all do—they consider past days.

The stories of individuals who have achieved greatness with little or no character of foundation. The talk of their accomplishments in the portrayal of character in its highest, truest sense—of character which may be an inspiration to doubting, wavering ones ignorant of their own fine possession.

Of all things needful to success in the business and professional world it is character which counts most of all. To be known as a person of character is to be recognized as a person to be trusted, as one who fulfills his word, as one who is loyal to friends.

And as one who is square with enemies. That is a test of character—to be fair with those who would set themselves be fair.

You may try to obtain this wholly desirable thing—character—to put it in a word. But that is impossible for it is made up of many parts all nicely balanced and blended to express itself through personality.

Sincerity, of course, is a necessary element in character. Truth manifested as honesty is a second. No character would be complete without kindness and justice and tolerance.

All of this being so, it cannot but be the fact that true character is built about deep reverence for an ideal.

Try to Be Considerate of Your Child

By CONSTANCE CAMERON

IT was Saturday afternoon. Mrs. Brown and an old friend were chatting in the living room over a basket of mending. Betty Brown was studying her lesson on the davenport and surrounded by books, and vainly trying to balance a huge atlas on her lap. Now where is the Island of San Salvador?" Betty put the tiny tip of a small finger over her upper lip and held firmly onto the big book with her other hand and a tight knee-grip. There! She leaned closer over the big map.

Constance Cameron

"Betty Brown: You don't pay any attention to me when I speak to you!" The child looked up in amazement. "Go quickly. Someone is at the back door. If it's George with the washing have him set the basket in the kitchen. The money is on the table—give it to him."

Betty laboriously dug out from her literary blanket and skipped to the kitchen. Having duly followed her mother's instructions, she returned, wriggled under the big books again and tried to relocate San Salvador. But the tiny island had flopped over a couple of pages when the telephone rang.

"Betty, answer the phone for mother, that's a dear."

Again Betty wriggled out. "It's for you, mother."

This time Betty didn't pursue her search for San Salvador. She cracked her books shut, and put them away and got out some sewing for her doll.

"Have you finished your geography lesson?" inquired Mrs. Brown when she re-entered the room.

"No," replied Betty. "I will before Monday, though I hate geography."

The front door-bell rang.

"Betty, answer the door. It is Eleanor come after Mrs. White. Tell her to come in for a few minutes." The guest entered.

"Betty run to the kitchen and wrap up Mrs. White's cake tin in a piece of paper. She wants to use it today." And Betty trotted out.

Betty's mother wonders why this child dislikes studying, but who could hold interest over a period of such excessive interruptions?

Betty's mother wonders why she never stays at one activity long, but flits from one thing to another.

The answer is as simple as it is tragic. The mother is teaching her to dabble at everything because she never lets her continue one activity UNINTERRUPTED long enough to finish it or get truly interested in it.

And the interruptions are so thoughtless and so unnecessary. Why should a child, just because he is small, and not engaged in doing the things WE feel are important, be called upon to jump every time the telephone rings, or the doorbell sounds, or to trot on endless errands which by a little forethought we could avoid requiring at all? A child gets tired just as we do. And what a child is doing is fully as important to his growth or pleasure or education as what WE are doing. There should be a spirit of friendly helpfulness in a home, but there should be no imposition upon a little child just because he IS a little child.

Listen, World!

By ELSIE ROBINSON

I READ this lately—"FEELINGS ARE TERRIBLE THINGS TO PUT AT THE HELM IN LIFE."

Do you see the picture behind those words? A ship—seaworthy in itself—but with a drunken pilot at the wheel. Darkness about, a rising storm and waves that leap like snarling wolves. With every gust, with every surge the doomed ship staggers and veers—for reason has fled from the crazy eyes of the man who stands at the helm.

Elsie Robinson

Too strong a picture? No, not strong enough. For FEELINGS at the helm can work more deadly ruin than the most drunken of pilots.

Feelings at the helm of your life. That means DRUGS at the helm of your life—

Self-generated secretions, poured into your blood stream by your own glands, but as truly drugs, nevertheless, as the strychnine, arsenic, cyanide and morphine on the chemist's shelf.

"But I thought feelings came from the brain," you say.

That is what everyone believed until recently. Now we know that feelings have little to do with the brain.

You don't get excited or mad or frightened with love in your brain. Your brain is like a switchboard. Various impressions press on that switchboard through your senses—sight, touch, hearing, smelling and tasting. But your FEELING does not happen in your brain . . . it happens in various glands scattered through your body.

When the impressions have "plugged in" on that switchboard, and the brain has telephoned the message to your body along the sensitive wires of the nerves, the glands get busy. They are always busy, but now they get BUSIER. Certain glands may be affected by one message, certain by another. The adrenal gland, for instance, which is situated near your kidneys, has much to do with your feelings of excitement. As soon as the brain telephones DANGER or HATE or ANGER the adrenal begins to shoot an extra amount of its secretions . . . called hormones . . . into the blood stream. And what happens next depends on you.

If your life is run by FEELINGS, you are then at the mercy of HYSTERICAL HORMONES! You may blow up and pull a scene at the office. You may stage a fight with the wife. You may drink. HORMONES make HOMICIDE.

But, if your life is run by intelligence, you can control this sudden riot in your blood. You can steer yourself through to safety.

Feelings rule the lives of brutes, savages and children. They also rule the lives of many who consider themselves intelligent adults . . . but they're not. No one who is really grown up allows himself to be ruled by feelings. No one who is really civilized can put feelings at the helm. For that reason it doesn't last five seconds if feelings run amuck.

What's at the helm in YOUR life?

The chemistry of a brute—

Or the intelligence of a MAN?

The Real Truth

ABOUT BEING YOUR OWN DECORATOR

By ELINOR GLYN

THE great thing, girls, in expressing your individuality in the room that is your own, is really to have what pleases you, not what a decorator happens to tell you is the right thing to have, or something which is a copy of another person.

Elinor Glyn

Study sufficiently to understand which style is which, and what each represents, and then decide upon one which you really in your secret heart admire.

As you educate your taste your eye will become more trained to perceive beauty, but the first step is to express what you truly like and not what others recommend.

This is the way original lines in furniture begin. Someone with sufficiently individual taste has the courage to have his dream of beauty made a fact.

A wave of mammoth arm chairs swept America in the last years, generally covered in elephant grey or mole colored velour. With these came an avalanche of bottom Spanish or "William & Mary" bureaus and tables and

This style is so hopeless, nothing can be done with it. If you possess a house filled with it, you must bear it until you can sell it all and start afresh.

But if you are marrying, girls, and beginning a new home—even if it should be a tiny apartment—do study styles and select one which will be a lovely background for yourself, and not one which will submerge you.

DO YOU KNOW THAT—

A fishing boat fitted with electric lights and with bathroom for officers and crew, has been launched at Fleetwood, Eng. She is a steam trawler and is destined to go to Greenland, Iceland, the White Sea and Bear Island.

Furs in their primitive state on the bodies of their natural owners are the object of an exhibition in Paris. The exhibits embraced 1450 animals and included silver foxes, rabbits, opossums, muskrats, mink, skunks and goats.

Miss Pat -:- Romance of Air

By ELENORE MEHERIN,
Author of "Chickie" and Other Famous Serials

CHAPTER 13

He laughed—everything and everyone seemed shining with beauty; with overpowering, gentle sweetness.

Even Tim Chase. The huge fellow pointed to his jaw with a sheepish "Fine lad you are, Pat!"

Pat gave an uproarious, hysterical laugh. "Sorry—I worried about that."

Chase came near: "Proud of it! Say, can I take care of Jim while the honeymoon's on?"

"Can you take me back to jail?"

"Guess you'll have to find another boarding house—charges disnissed—whole case gone up in smoke . . . Tom Burns—oh, you've got heard of that—that's a—a—Well, you're free—and proud I am to tell you."

Pat was lost in her mother's arms. They could never have enough of each other. Pat whispered to Laura's yearning heart. "It was Dickie who saved me. Oh, mother dear, it was your Richard who brought me back. So clear I saw in his face that at last I thought I died. He who gave me courage, who urged, 'Up—you can!' I felt my father near. All along he hovered near."

Laura wept. Finally told each other things like this till Dickie wedged between them; till he came with "Say, you two—say, two—are I'm here! Well, hello, Miss Pat! How are you?"

Two big arms trickled down his cheeks. He flung himself in Pat's arms and openly let her hug him. He said: "Glad We almost died.

"I knew it! You'll appreciate me from henceforth, Mr. Dickie!"

"Aw, cut it! Didn't I always let you boss me?"

BEST JOKE I EVER HEARD

The Boston Evening American will pay $1 for "Best Joke" published. Address "Best Joke," Boston Evening American.

Today, in the real estate columns of the Boston Evening American, you will find scores of opportunities for profitable investment.

Saturday afternoon—the first Saturday in November, Pat and her mother were in the garden. They were waiting for Guy. A machine drove up. All the Bryces got out. . . . Billy ran and caught Pat's hands: "I've come to visit you. Are you glad?"

Then William Bryce was holding her hand in both of his. And after many words had been uttered he said, "Does the lad really forgive me?"

"Of course."

"Then you know I've signed back all the patents to him. He's free to live that other job. They'll pay him for the rights. I've arranged that He wouldn't! No money—but hell! get that's worth from Bottfield. That much. at least, I can do . . . Pat—little girl, he should take the reward—that money I pledged."

She gave a high laugh: "Why, Mr. Bryce—can you pay me to save my adopted child? That's what you're going to pay for a mere—enough to pay for a yacht like me? Oh, we are paid—we all richly paid."

"Please, dear Miss Pat—you will take a gift from Billy? You will take the plane Guy used to find you? From your adopted child."

She looked in the man's beseeching face. "Why, yes—I think I can most gaily take it . . . and many, many thanks."

He turned over the garden where the asters were blooming, where all was the gold and purple glory of autumn. "Something else could wish to give this to you valiant mother."

"No!"

"But she must let me redeem myself, Miss Pat. You know I've a right to find my soul, too, haven't I? Well, I've bought the mortgages. They were for sale, you know. And she shall have them off as I see fit. That's business—isn't it? And you'll all live here together, Pat."

Pat gave a laugh. She pressed his hands. "It sounds entrancing, sweet."

She told it to Guy. She drew his face down and kissed his forehead where the scar that told how brave he'd always been made its immortal mark. "You are not angry I took the plane?"

"All that you do is right—I see it so."

"What shall we do now, then?"

"Live happy, sweet Pat—happy ever after."

EVENING New York Stocks AMERICAN News of Street MARKETS

STEEL TONNAGE REPORT IS CHEERING

By FRANK H. MELOON, Financial Editor

U. S. Steel's report of a December increase of 291,848 tons in unfilled orders was cheering for Wall and State streets. It was the first of a number of expected proofs that American business had not succumbed to the stiff blow of the stock market break. It was the fourth successive monthly increase, and brought the total of the big steel corporation's unfinished business to the highest level since last June. Incoming business was shown to have been larger in December than in November. The total was only 331,895 tons under the highest mark reached in 1929.

Improvement in another "key" industry, such, for instance, as construction, might considerably turn the stock market very bullish. Construction, by the way, is the industry regarded as Secretary Washington Leaders are most optimistic.

• • •

Thomas L. Stix

Treasurer F. C. Dunsmore of Amoskeag Mfg. Co. was quoted as being more optimistic about the future of the industry than he has been in the past. The report was sufficient to bring about a sharp upswing in Amoskeag on the Boston Stock Exchange. Brokers give us the opinion that there is no telling where the good textile shares will stop when they break out of current low levels.

• • •

Automotive share investors will do well to view with a grain of salt the reports of pending prohibitive tariffs in Europe against cars, trucks and parts. Failure to create such tariffs may be introduced in legislative bodies, but we can guess a lot on this bill in the same class as the freak legislative proposals so common in our own country.

• • •

American Telephone's annual budget is closely watched by economists. They feel the big company is in close touch with general business conditions, and unlikely to provide for big expansion programs if its officials were to surmise things would go generally well with business.

• • •

American Woolen stock is apparently being bought around double its 1929 low more on prospects for 1930 than on business gains achieved in 1929. Confidence in the leadership of this company has never faltered. Its president is one of the very few New Englanders who have had practical experience in both the woolen and cotton branches of the textile industry.

• • •

Increase in operations of Bethlehem Steel's mills to 71 per cent of capacity and of U. S. Steel to 65 per cent of capacity was accepted as conclusive evidence of the recuperative power of American industry following the greatest stock market debacle in financial history. This is partly the result of the plans for business stabilization formulated at the President's conference. Ordering of steel for utility and municipal projects is already under way.

• • •

Orrin T. Hard, secretary of The Atlantic Corp., has been elected a vice-president.

• • •

William Chamberlain has been elected a director of International Paper & Power Co.

• • •

Alexander Skilton, Jr., for four years manager of Bridgeport office of F. R. Kingston & Co., has been appointed general sales manager of the entire Kingston organization, comprising nine offices in Connecticut, two in Massachusetts and one in Canada. Rollin J. Furbeck, head of the Kingston wholesale department and formerly vice-president of Investment Trust of New York, will succeed Mr. Skilton as manager at Bridgeport. William Bauer will assume direction of the Kingston office at Danbury.

• • •

William Appleton Coolidge will be admitted to the firm of Jackson & Curtis as of January 15.

Million Dollars in Carbonic Expansion

Liquid Carbonic Company announces a million-dollar expansion program, of which a considerable portion will be spent in Boston and the east for new plants or additions.

In Boston the improvements will double the production capacity for dry ice. Dry ice is the product of the Dry Ice Corporation, in which Liquid Carbonic owns a substantial interest.

How to Develop Right Spirit in Employes

Request for Suggestions Is Responded to by Many Readers

By B. C. FORBES

NEW YORK, Jan. 11—How can work be made more interesting? Suggestions were asked a fortnight ago in this column by a large wholesale grocery concern which was anxious to develop some plan "to help the morale and increase the interest of our employes. We thought perhaps we could inject the spirit of a game in our work."

Plenty of readers — employers, theorists, workers—have responded. . . .

Most of them emphasized the desirability of bringing the spirit of competition into play the spirit of friendly rivalry within the organization, the desire to achieve distinction—with, of course, appropriate rewards.

Such suggestions came from Schwab greatly increased production of a steel plant by an amazingly simple act. Just before the day shift knocked off, Schwab, then manager, asked one group how many times their shift had performed their function, and wrote down the figure in chalk in front of the furnace. When the night shift came on it saw the figure, caught what it meant, and when the day shift arrived it found a higher figure chalked up. The night fellows went them one better. And production was so increased that the men hadn't the face to fall back to their old, lazy ways. . . .

Another idea emphasized in most of the letters received is that there should be frequent, close and friendly contact, rubbing of shoulders, and exchange of suggestions between the workers and those higher up.

The importance of the social note is also stressed. Also profit-sharing.

The list of suggestions made by H. C. Lang, Baltimore, follows:

Form an employes' social organization—if desirable allowing employes to contribute, say, five cents a week to be used for social purposes. If organization exists, if wide enough, have departmental bowling, baseball and soccer teams.

Picnic in summer and, perhaps, a dance in winter.

House organ.

Suggestion boxes.

Bulletin board.

Profit-sharing.

O. W. Lord, Metropolitan Life, Los Angeles, suggests:

"Use the spirit of football. Take the amount of business done for 1929, set a goal for 1930, have a meeting of all employes, let them, with good suggestions, select captains, and have hurdles at stated times during the year— the side having the most good points towards winning the 1930 goal to get prizes. The Pacific Coast territory of the Metropolitan Life plays a series of baseball every summer, and it takes great."

George H. Sugermeyer, Bloomfield, N. J., recommends:

Employes stock ownership—on partial payment basis.

Suggestion system—with cash remuneration.

Group insurance.

Inter-department athletics, as well as games with other firms.

Yearly outing at some amusement park or lake. Dance in the winter.

Form a committee, consisting of a representative from each department, to meet weekly to discuss general welfare and methods of better co-operation.

Bonus after five years of consecutive employment.

Vacations with pay for all.

House organ. . . .

From another reader:

If there is lazity among salesmen, give a prize weekly or semi-monthly for the one showing the largest percentage increase over the same period in the previous . . .

If stock keepers are at fault, give prize semi-monthly to that department or floor which is kept the cleanest, neatest and most efficient. committee of employes should be the judges. . . .

If the shipping, delivery of like departments need toning up, give prizes to that department which has done most efficient work, pitting one department against another.

If office help is to be stimulated, make prize for neatness, promptness and accuracy, including suggestions for bettering business.

Regular meetings of employes for inspiration.

If the company has stock, prizes should be paid in stock; if not, cash. . . .

Some readers declare that there is frequently too much aloofness on the part of higher-ups, while employes feel that sufficient pains are not taken to discover their abilities . . .

After all, however, this question of inspiring loyalty, enthusiasm, usefulness and top-notch efficiency remains a problem which each management must solve for itself . . . cut-and-dried plan will work in as the motive underlying it and putting it is right.

$150,000,000 AM. TELEPHONE OFFERING

New York, Jan. 11—J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder Peabody & Co., First National Bank, National City Co., Bankers Co., Guaranty Co., Harris, Forbes & Co. and Lee, Higginson & Co. will offer Monday $150,000,000 American Telephone & Telegraph Co. 5-year, 5 per cent debentures, dated Feb. 1, 1930, and maturing Feb. 1, 1965, at 99½ to yield about 5.03 per cent. Bonds will be redeemable at option of the company, as a whole but not in part, on 60 days' notice, at any interest date on or prior to August 1, 1961, at 110, and thereafter at par.

Proceeds of the issues will be used for additions and betterments for the Bell system and for other capital expenditures. After giving effect to these debentures company's long term debt will be less than $670,000,000, whereas capital stock at its par value, including paid portion of any instalments, will be in excess of $1,400,000,000, or a ratio of capital liabilities to funded debt of more than two to one. Assets of American Telephone & Telegraph, after deducting current liabilities, as carried on the books at more than $2,378,000,000 on Sept. 30, last. Investments at that date in companies and affiliated companies amounted to $2,015,000,000 and in its telephone plant and equipment to $324,000,000.

Bids for the new bonds, when issued, were reported Friday as high as 100¾, with existing issues of 100¼ to 100¾. The Telephone 5s of 1960, which closed Thursday at 102½, closed Friday at 102⅜. Demand for the new issue was said on Friday to be so strong that some houses had ceased to accept further orders.

BOND MARKET IS STEADY

New York, Jan. 11—The bond market was dull and steady in today's two-hour trading session. Under selling appeals here and there in anticipation of current and prospective new offerings in the morning that they would absorb, had an appearance of surface irregularity.

BANNER YEAR IN TIRE SALES PREDICTED

This year will be the greatest in volume of unit tire sales in the history of the industry, according to Joseph F. O'Shaughnessy, assistant general manager of the United States Rubber Co., who is in Boston today to conduct a meeting of 50 field representatives from all over New England.

J. F. O'Shaughnessy

Accompanied by L. M. Simpson, general sales manager of the company, O'Shaughnessy is now on a 10,000-mile tour which will take him to key centers in all parts of the United States during a six-week period.

Major moves to be undertaken by the United States Rubber Co. are being outlined to field officials and salesmen of the company in a series of conferences arranged at central points. A study of general business conditions also is being made en route. Commenting on the tire outlook, O'Shaughnessy and Simpson both stated that most of the automobiles built last year, when the industry touched a new production peak, would require their second tires during the current motoring season. This demand will be felt in volume in the spring and become more pronounced as the season advances," O'Shaughnessy said. "Old cars held over for another year also will require new tires this year, which will further accelerate the normal demand.

"Added to this market, which absorbs most of the annual output of tires, are other growing outlets that will help swell the sales total for the year. Fleets of commercial cars, trucks and taxicabs are increasing at rapid numbers.

"The bus industry, which in the brief span of eight years has become the country's largest individual medium of transportation, is increasing its tire consumption by leaps and bounds. The airplane tire market, both in equipment and replacement business, is expanding.

In addition to these, the automobile and aviation industries are continually absorbing an increasing

quantity of rubber products in many parts, notably for insulation and shock absorbing purposes. The usefulness of rubber in industry and commerce has scarcely been tapped, and the prediction has already been made that ultimately the American motorist will roll on rubber tires on pavements made of rubber compounds.

"The almost limitless possibilities of rubber and rubber products in future industrial development have spurred American interests in rubber plantations in the Far East. Our own organization has maintained and increased its own plantations for more than 20 years."

McLellan Stores' Sales Increased

New York, Jan. 11—McLellan Stores Corp. reports sales for the first week of January of $247,000 against $247,000 in same week of 1929. W. W. McLellan, president, stated that practically every store showed an increase.

Cotton Is Steady

New York, Jan. 11—Cotton futures were steady today. January 17.12; March, 17.27; May, 17.49; July, 17.66; October, 17.69.

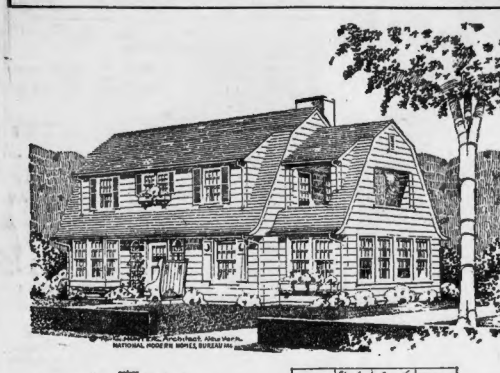
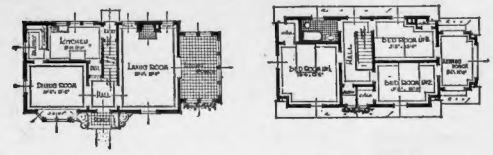
NEWS AND VIEWS OF MODERN HOMES

Comfortable Home at Cost of $9900





FIRST FLOOR PLAN SECOND FLOOR PLAN

By National Modern Homes Bureau, Inc.

COLONIAL TYPE HOME

THIS house, A-57, has been designed for comfortable living. The architects have so arranged the plans that the housework can be done with ease.

Note the arrangement of the kitchen in relation to the rear entry, cellarway, pantry and dining room; all can be reached with but a very few steps.

The striking feature of the plan is the porches. The architects have solved the problem of the living porch and the sleeping porch so that they are not only livable, but add to the exterior appearance of the house as well.

Too often sleeping porches are but ugly makeshifts "stuck" on the house, which has been the reason why so many people have given up the idea of a sleeping porch.

The second floor of this house provides three good bedrooms, a bath and seven closets, all conveniently arranged about the center hall.

The interiors should be carried out in the Colonial style, to harmonize with the exterior.

A cellar, providing the laundry, heating and coal spaces and such, extends under the entire house.

This house would look well on a lot with a frontage of about 60 feet.

The cost about $9900.

COMPLETE working plans and specifications of the house illustrated above may be obtained for a nominal cost from the National Modern Homes Bureau, Inc. Any technical questions regarding this house will be answered without cost or obligation. Address the National Modern Homes Bureau, Inc., Real Estate Department, Boston Evening American, 5 Winthrop sq., Boston. Refer to House A-57.

Letters From Readers

See Improvements Needed at Mattapan Station

Editor Boston American:

Passengers of the Dorchester Rapid Transit System should be provided with more convenience at the Mattapan Square station.

As at present people waiting for the buses at that station are exposed to inclement weather, and at this time of the year to the cold.

Patrons should be protected against such danger and inconvenience.

MAX HENRY NEWMAN.

Urges Suppression of Anti-Saloon League

Editor Boston American:

If I were president of our country the first thing I would do would be to suppress that fanatical Anti-Saloon League, arrest or exile these other busy bodies the W. C. T. U., and "Junk" the Idiotic Volstead and Jones "Laws?"

Give the people the rights that were taken away from them by Volstead. Fire all prohibition "gunmen" and start building the biggest and mightiest fleet, carriers, and submarines the world ever saw.

As for annexing Canada, Canadians are an intelligent people and capable of efficiently running their own government, they need no outside advice.

Serve Youth, Rest Prove Old Age Pension

Editor Boston American:

I would ask the Reverend A. E. Conrad, who will hire a worker the age of 60 or 65 instead of a youth of 19, in these days of speed?

I do not blame anyone for rejecting an aged man in preference for youth. Take a man who began work 50 years ago at the age of 15 under the best circumstances. Now after working half a century serving man and his country, at the age of 65 years he is not entitled to an old age pension to help spend his few remaining years in peace and comfort.

But the Reverend Conrad says he knows men and women at the age of 80 and 90 more proficient than youth.

I consider this statement absurd—unless the government and the state will build plants especially for the aged people.

I consider now is the time for such a burning subject to be publicity discussed.

Thinks Drastic Action Needed on Highways

Editor Boston American:

No doubt many American readers have read about the Cambridge girl who was seriously injured while leaving a street car by a careless motorist in that city.

Why is it that these serious accidents escape the register?

It is very apparent that such drivers as these are a menace on the road, and should have their license revoked as improper persons to operate.

Last summer the same thing very nearly happened to me in Boston, while leaving a South Huntington ave. car.

I had a baby in my arms. Had I not stepped back quickly, I'm sure I would have been run over.

Lauds Astronomers Who Admit Mistakes

Editor Boston American:

What was said in your Letters to the Editor column lately about the moon reminds me of the planet Jupiter. It is getting near to the earth. It is an object of admiration every evening, only I wish that it had some other name besides a heathen one.

The astronomers have at last been mistaken about this planet and they have had to change their minds about its temperature. The visible surface was regarded till lately as being of intense heat. Through the aid of new powerful instruments at Lowell observatory, it is now pronounced a very cold planet, something like 100 degrees below freezing point.

There is one thing I like about these astronomers; they are willing to acknowledge their mistakes in public. This is not so with professors of other branches of knowledge. Some of them can't say "I am mistaken." They hold on to an old truth which has turned into an error till they have not a leg to stand upon.

Believes Secret Marriages Shortlived

Editor Boston American:

Love often slops over. When it does then it may end in a secret marriage. Happiness in Such marriages may last for a while, but the same hasty decision that precipitated a secret marriage will often prepare the way for a hasty dissolution of the marriage tie.

Secret marriages do not convey any more love than the well prepared, orderly and dignified marriage which has not been subjected to fits and starts, lots of emotionalism. In fact, more divorces result from such a type of marriage than from the well-planned open event of the marital ties. Young people should remember that marriage is for life.

Quotes Webster Defense for Attack on Bay State

Editor Boston American:

That unreasonable attack upon Massachusetts by a religious weekly published in the West can be answered by this quotation from one of the addresses of Daniel Webster:

"I shall enter upon no encomium of Massachusetts. She needs none. There she is. There is her history. The world knows it by heart. The past, at least, is secure. There is Boston, Concord, Lexington and Bunker Hill. They will remain forever."

These words of Webster are the best answer that one can make to any attack upon the Bay State.

Crippled Children Need More Care, He Says

Editor Boston American:

More consideration for increasing the efficiency of crippled children is needed. Very few know the great good being done by a Boston institution which is bringing happiness, not only to parents, but to crippled children, children who otherwise would not make any progress.

There are 400,000 crippled and deformed children in the United States. The cost of caring for them amounts to about $300 a child. The total cost is $120,000,000 yearly. Nothing should appeal so directly to those who are willing to aid this cause as the Boston institution which is doing excellent work in a quiet way and should share with others in the sums of money given for the unfortunates. Amos and Andy Like Chicken, Waffles

Bob Berger, the waffle king, known from coast to coast, wines restaurant in the Metropolitan Theater building is the popular place for theatrical folks to dine, announces that Amos and Andy like chicken and waffles.

Between shows, Amos and Andy, while busily engaged in preparing material for future broadcasts, have their food sent into their dressing rooms from Bob Berger's. Chicken and waffles seem to be their favorite, according to Bob.

Patsy Ross to Play at Silver Slipper

Preparations are being made at the Silver Slipper, Arlington at Boston's favorite dine and dance restaurant, for Shoe Style Week celebration. This restaurant is very near to the exposition hall and many of the visiting stylists and manufacturers are expected to be guests. Patsy Ross and his orchestra are featuring some of the latest song hits on this occasion. Patsy was, for a number of years, associated with the "Trianon," the world's most beautiful ballroom, in Chicago, which is now reported to have the best dance music in the country. Before going to the "Trianon," Patsy played at the Million Dollar Pier in Atlantic City, and also with Davinos Concert Band in Boston. His long experience and ability should do much to popularize this smart place, also for his choosing of William Ceance as director of his orchestra. Ceance is well known to Boston music lovers by his marvelous selections on the violin.

Barn Cafe Ready for Shoe Week

Fred Sorsco, manager of the Barn Cafe, Newbury st., has made big preparations for entertaining the visiting shoemen attending the Shoe show at the Statler next week.

Alice "Fluffy" Nelson, popular hostess at the Barn, is expected back from the St. Louis show today. Ramona Hawkins and her Broadway revue have been engaged. Beginning Monday the cover charge at the Barn will be removed.

Dr. Marsh Delegate

President Daniel L. Marsh of Boston University will leave tomorrow night for Washington, D. C., where he will attend the annual meetings of the Association of American Colleges and the Council of Church Boards of Education from January 13-16.

Ratshesky a Good Choice

Czechoslovakia Congratulated on Its New Minister From the United States

THE BOSTON EVENING AMERICAN offers its congratulations today to Mr. A. C. Ratshesky, to President Hoover and to Czechoslovakia—but mostly to Czechoslovakia as the major beneficiary.

In naming Mr. Ratshesky as minister to Czechoslovakia, the President has selected a man eminently fitted by public training and business achievement to be the diplomatic link between the two countries.

For years now the name A. C. Ratshesky has been high in the lists of Bostonians identified with various activities, and this especially so in pursuits of PUBLIC SERVICE and of PHILANTHROPHY.

Always he has been first to answer the call and always the wisdom of his experience and training has been sought. Not a lawyer professionally, yet he knows law; not a politician professionally, he knows politics—and not a diplomat professionally, he will be highly successful in diplomacy.

Again we congratulate Czechoslovakia on her good fortune.

Three Words

May Be of Help When You Visit Germany This Year

ALWAYS gracious, always ready to help others, Mr. William M. Terhune, retired Boston publisher, brings back from his eighteenth crossing of the Atlantic a few kind words.

"If you happen to be in Germany and you want a good wine," says Mr. Terhune, "ask for Karthauserhofberg.

"A splendid beer can be had by asking for 'Forstenbergbrandafeigetrank,' and in case you want three eggs ask for 'Ruhrsierodorerhucken.'

"All that will be necessary is to pronounce the words correctly. The waiter will understand."

Perhaps, but somehow it reminds us of the minstrel's story about the man who never knew when to quit. "It does seem to me," urged his good wife, "that when you have had liquor enough you should call for sarsaparilla." "My dear," said the poor fellow, "when I have had liquor enough I can't SAY 'sarsaparilla.'"

New York Day by Day

By O. O. McINTYRE

NEW YORK, Jan. 11—Only a Broadway could have spawned a Larry Fay, who is one of the glittering alley's best known characters. He symbolizes its flinty heart as well as its mawkish sentimentality—the ten-minute egg who is so often as soft as putty.

Fay is in his early thirties, with an extremely youthful face and a shock of hair brushed into a high school boy side part. His smile has the dazzle of a sunlit ripple and his eyes twinkle a Caledonian mirth yet his voice is harsh and just a trifle sinister.

Like so many of his kind, his origin is clouded. Some say he was hived in the East Side tenements and others say he grew up on the Hell's Kitchen sidewalks where the cops walked in pairs. Anyway it is known he began driving his own taxi for the stars at the old Bio graph studio.

From this, a born organizer, he built a fleet of taxicabs which he might have sold for $1,500,000 if the prospective purchasers had not snubbed Fay's pal in the deal. He later sold out for just half that amount—his crush of loyalty costing him $750,000.

It was Fay who really discovered Texas Guinan. She was in the theatrical backwaters, outmoded in vaudeville and movies, when he opened his celebrated El Fay cub and established her as a hostess who would enrich the world with "Hello Sucker!" and "give the little girl a hand!"

The place until its final padlocking became one of the most talked about cabarets in the world and furnished Fay with a $10,000 a week income for years. He tried to carry the idea to Miami and hit the rocks. The most recent news of him was his so-called $80,000 a year "milk racket."

He was accused of using gang methods in demanding $4,000 annually from 200 dairymen for "protection." Coincidentally with that was the sob sister epic of his spending thousands on the fatally stricken Ziegfeld beauty, Myrna Darby—a girl Fay had seen but once in his life.

Members of the real 18-karat society in New York are said to be avoiding exclusive restaurants because of the exploitation didoes of what is known as "cafe society." Many show-offs do bear the names of illustrious families but are not a part of the creme de la creme. They are the conspicuous who endorse cigarettes, hand lotions and stand for "ghost written" stories bearing their names in the magazines.

The north wing of the stately and sombre Whitelaw Reid mansion at Madison ave. and 51st st. is dark while the south wing is tipped with light these winter nights. It is about the only residence in town to retain an expensive courtyard dotted with a fountain. The closing of one wing is due to that great housekeeping bugaboo—the servant problem. Faithful old servitors are reputed to have grown too feeble to trudge the block-long halls from one wing to another. And new servants, hep to modern rights and willing to die to defend them, refuse to trot an entire block just to see who is yanking the front bell.

Living a few blocks from the Reid home for many years, it has always incited a curious attraction. Like a grandfather's clock, it is stood and magnificently gloomy. I have never seen anyone arrive at or depart from its entrance gate.

But the gloomiest residential pile of all continues to be the faded old Wendell mansion on Fifth ave., with its flapping shutters and curtainless windows. It stands like some forgotten scarecrow in a beautiful garden.

Twice in as many weeks, two furtive fellows have waylaid me in a dark side street and nodding at a nearby truck with a knowing wink, indicated they could sell me some stolen woolens cheap. It is one of the oldest Rube-baiting rackets in town. And slows up my growing notion I was becoming a city chap.

"Your frequent reference to high-toned dishes," writes Tommy G., "are amusing. I happen to know you were brought up on sow belly, turnip greens and black-strap molasses."

Drop in some time and watch me toy with a slice of Lady Baltimore cake—you big stiff.

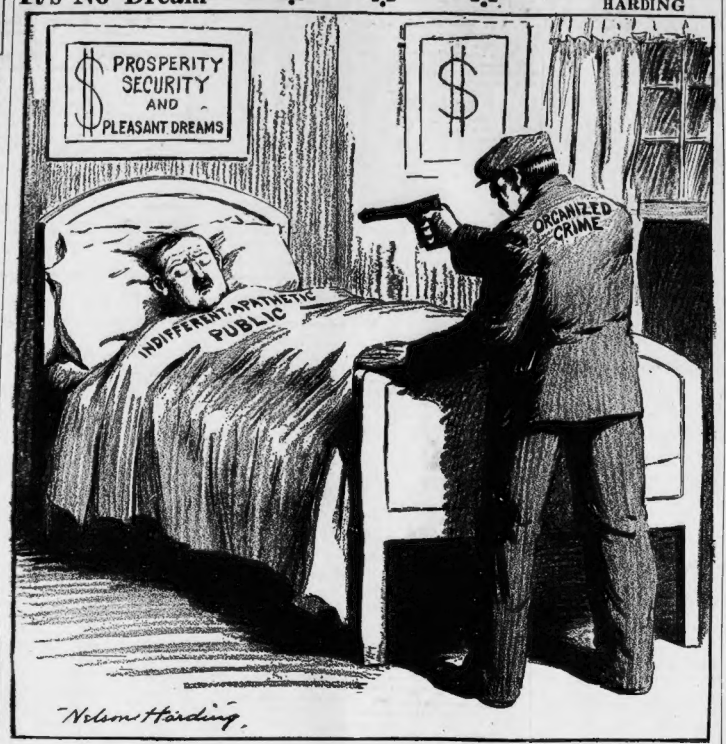
It's No Dream

By NELSON HARDING



It's not a nightmare that appears,
Or some dream-horror that you see
Disturbing your complacent sleep,
But grim and stark reality.

The menacing and ugly shape
Beside your comfortable bed
Is real! Awake and face the Fact,
The weapon leveled at your head. —N. H.

Labor "Dolled Up"

Clothes DO Make a Difference

(Copyright, 1930)

PHILIP SNOWDEN, OF THE BRITISH LABOR PARTY, IN HIS MAGNIFICENT ROBES AS CHANCELLOR OF THE EXCHEQUER

Through tattered clothes small vices do appear;
Robes and furr'd gowns hide all.
—"King Lear."

Worth makes the man, and want of it the fellow;
The rest is all but leather or prunello.
—Pope.

THIS member of the British Labor Party, a man of the highest education, long training in thought and action, and DETERMINATION, now manages the finances of the British Empire.

He prepares the budget, the amount that the great empire, spread all around the world, shall spend. In co-operation with his associates in the British Cabinet, and with the House of Commons, and with the approval of the King (given automatically), he decides where the money shall be spent and for what purpose.

He decides how much shall be paid to men out of work. Great Britain, you know, allows no man to go hungry. If you can't find work you get a "dole" sufficient to keep you going.

That costs the Britons many millions a year, but even that is cheaper than a revolution.

Snowden, whom you see here in all the glory of British official "fine clothes," is the possessor, as you will notice, of an iron jaw that carries things through.

When the Allies were deciding what should be done about the amount of money to be taken from Germany quite recently, France and Italy and some other countries had arranged that they would have most of it, and that England would have the pleasure of looking on benevolently.

This Labor individual, Snowden, called down upon his head the blessings of all the British, including the Tories, who at first thought they hated him, when he told the representatives of other countries: "Britain is entitled to so much of that money, and I mean to have it."

HE GOT IT.

Since then, he has been one of the most popular men in England.

A little later, perhaps, when he begins taxing wealth and especially if he touches real estate, and puts more of the burden on the less prosperous, he will lose some of that popularity.

Meanwhile you see from these magnificent robes of state that CLOTHES DO MAKE A DIFFERENCE.

The British give their public officials important offices, BIG SALARIES, with a pension if they need it when they leave the public service. They give them clothes to make them look as important as they are.

Anybody seeing this man would say at once: "He must be somebody."

And here is the moral for young men trying to get ahead in the world:

DRESS YOURSELVES WELL, keep yourselves neat, NOT GAUDY.

Clothes are not so important after the first impression is made; perhaps.

But they always ARE important.

The lack of proper clothing often means FAILURE IN THE EFFORT TO SEIZE AN OPPORTUNITY.

Dress well, within your means, modestly, not for show.

Recommend yourself at first by your APPEARANCE, and when you have the chance, let good work be your REAL recommendation.

The BAER Facts

By ARTHUR "BUGS" BAER

THE Bostonian squawk against rum killings means only the elimination with guns.

It does not include the booze slaughter with flasks.

The Cradle of Liberty, where freedom got a terrific rocking, protests against the massacres to make a rummy holiday.

We do not concede the right of the Coast Guard to shoot down harmless citizens out for a marine stroll.

New York has entered many a crew in the alcoholic regatta, so has every big town in the country. It is a branch of the merchant marine that has not been subsidized by the government.

The tea is fermenting for another party in Boston harbor. It is not so long ago that the Senate cheered the killing of a boy on the long bridge.

The Senate requires triple megaphones for the New England victory.

You can smuggle perfume, diamonds and silks into America and the worst they do is to plaster you with a large, fat fine.

It isn't so long ago that a Congressman was sailed neatly with a trunkload of headache powders in quart portfolios.

He had been elected for medicinal purposes only. Did they cancel him with a machine gun? Every label on his trunk was a vote of thanks.

A tourist who tries to cop a sneak on the amendment business is fined five dollars a bottle. They don't shoot him either at sunrise or under Klieg lights.

There seems to be a law for the rich and an amendment for the poor. And the rich get their taxes returned.

The pendulum has swung back like a monkey on a grapevine and the Spanish Inquisition is speaking English.

A New Englander is a mild, patient bozo. But when he runs for that old muzzle-loader over the fireplace your next photograph should show you as a nimble dot on the horizon.

We will have to read the Constitution again to see if its by-laws and codicils include a bonus for massacre and a bounty on scalps.

H. G. Wells Writes on "The Science of Life"

In Collaboration With

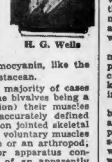
Prof. Julian Huxley and Geo. P. Wells

(Continued from Yesterday)

To each of these less exciting patterns of the mechanisms we call animals we will devote only a section or a part of a section here.

Sec. 2. The Molluscs

MOLLUSCS are creatures nearly all of which possess shells—double (bivalve) shells like those of oysters, clams and cockles, single hollow shells like those of snails embedded in the body-wall like the "bone" of a cuttlefish.



H. G. Wells

Except for these shells they are soft-bodied, without any skeleton. They are not segmented as arthropods are, but their blood is colored pale blue with haemocyanin, like the blood of a crustacean.

In the great majority of cases (the shell of the bivalves being a notable exception) their muscles do not form accurately defined bands playing on jointed skeletal levers, like the voluntary muscles of a vertebrate or an arthropod, their locomotor apparatus consists generally of an apparently disorderly tangled mass of muscle-fibres, the so-called "foot," an arrangement which leads to plasticity rather than precision.

There are five classes of molluscs, of which only three, the bivalves, the snails and slugs, and the octopuses and cuttlefish are of sufficient importance to mention here.

The bivalves, or Lamellibranchia, are all aquatic and most of them marine. They lie between two hard shells which are hinged together along one side; by means of powerful muscles the shells can be pulled together to enclose the animal completely when any danger threatens.

Some of these animals, like the fresh-water mussel, creep sluggishly about by means of that lobe of muscular tissue, the "foot," which they protrude from the shell

Some, like the heavy-shelled oyster, or the common blue mussel of our shores, that attaches itself firmly to rocks by means of a tuft of adhesive threads, do not move about at all.

Some, like the cockle, which can jump by means of a spring-like action of its "foot," or the scallop that swims by rhythmically opening and closing its shell-flaps, are surprisingly active creatures.

The scallop is a marine butterfly; to guide it in the long flights which it takes it is provided with a row of glistening eyes just inside the rim of each shell.

To ourselves the bivalves are important for three chief reasons; firstly because most of them are good to eat, secondly because the oyster makes pearls, and thirdly because some members of the class bore holes in wood or rock and can do extensive damage in this way to piles, breakwaters, wooden ships and the like.

The bivalves live by passing a continual current of water through the shell, a current from which they extract oxygen and the minute particles of organic matter upon which they feed and into which they shed their waste-products.

On opening a mussel, the most obvious structures that present themselves are the so-called "gills," the engines which keep this slow current of water in motion.

The "gills" are not primarily breathing organs at all; they are elaborate filters, like the pharynxes of Amphioxus or a sea-squirt, through which water is worked by means of cilia, and which collect suspended particles of food and pass them down to the mouth.

Among most important points in the anatomy of these creatures, perhaps their most bizarre features, in vivid contrast to the scheme of the two phyla previously studied, is the fact that the intestine runs actually through the ventricle of the heart.

The second class of molluscs, the Gastropoda, is also the largest; it includes the terrestrial snails and slugs and the whelks and winkles of the sea.

There are about 6000 terrestrial and 10,000 aquatic gastropod species living today, most of the latter being marine.

With them the "foot" is a flat muscular sole to the body lump—hence the name of the class, from the Greek for stomach and foot, they go on their stomachs—and most of them bear on their back a spirally-coiled shell into which they can retire when they choose.

The Marry-Go-Round

By HELEN ROWLAND

"NO man makes love like Romeo any more," sighs a woman writer. Alas, no—and if he should the girl would probably telephone for a psychoanalyst.

Nobody has so little patience with the follies of a young lover as the man who has just recovered from a foolish infatuation. And nobody can preach such an ardent sermon on prohibition as the man who is just recovering from a hangover.

No doubt the modern lover is more sincere than the flowery lovers of yesterday; but there are times when the Sphinx seems eloquent and Job seems positively impetuous beside him.

"Conscience" becomes a wonderful convenience when a man suddenly finds himself "unworthy" of a woman who is beginning to bore him.

A clever woman often wears her conscience on her sleeve so that it is almost as intriguing as a mourning band or a widow's veil.

You don't have to psychoanalyze yourself in order to discover whether you are really in love or only infatuated. When you are, you will know it as surely as you know when you're hit by a taxi or when you've stepped into a manhole. But it will be too late to do anything about it.

The old-fashioned girl would have been horrified to kiss a man she didn't know; but nowadays a girl seems to think it spoils her record to know a man that she hasn't kissed

The Rhyming Optimist

By ALINE MICHAELIS.

THERE are dear days that usher in delight,
Upon the breeze, their very sun more bright
And lending glamor to well-trod-den ways;
Charmed days, whereon no unkind mind can lift
The leaves of joy upon life's fruitful tree;
Blest days, when all the tides of being drift
In one vast flood of peace and harmony.
Such days may pass unnoted and unknown
By men, unmarked on any calendar;
Their celebrant may spend the hours alone
Where no throngs pass, no sounds of voices are.
For these are feast days which the spirit keeps,
Bells chime and candles burn in its still deeps.

Words of the Wise Men

For hark! The last chime of the dial has ceased,
And Old Time, who, his leisure to cozen,
Has finished the months like the flasks at a feast,
Is preparing to tap a *fresh* dozen!
—Hood.

We triumph without glory when we conquer without danger.
—Corneille.

For a man learns more quickly and remembers more easily that which he laughs at than that which he approves and reveres.

Now the New Year reviving old desires,
The thoughtful Soul to Solitude retires.
—Omar Khayyam.

Youth is a blunder; Manhood a struggle; Old Age a regret.
—Disraeli.

He is safe from danger who is on guard even when safe.
—Syrus.

Ring out the old, ring in the new,
Ring, happy bells, across the snow;
The year is going; let him go;
Ring out the false, ring in the true!
—Tennyson.
